- (a) **Question No.1 From a Member of the Public - Universal Credit Application Assistance**

Dr Symonds asked Councillor Crow-Brown the following question:

"With the introduction of Universal Credit this month, what provision has been made at Gateway Plus for those patients in the community with severe mental disorder, who may need help in completing the required forms?"

Councillor Crow-Brown responded with the following points:

- Universal Credit would be introduced from 12 October and be available to new applicants only.
- It was unlikely that an individual with a severe mental disorder would be eligible for Universal Credit as the individual would probably receive an alternative form of benefit.
- Individuals applying for Universal Credit would have a work coach to assist in the application process.
- Gateway staff could call upon a number different agencies to provide specific expertise if specialist assistance was required.

(b) **Question No.2 from a Member of the Public - The Local Plan**

Ms Kennedy asked Councillor L Fairbrass the following question:

"In writing the Local Plan, can you confirm that current analysis of data and software modelling suggests that many more thousands of homes will be required than the 12,000 by 2031 proposed in the first draft and can you advise residents where UKIP would prefer those homes to be located?"

Councillor Fairbrass responded with the following points:

- The Council had received a draft report that suggested a rise of housing requirement to 15,660, however the report was not finalised and was open to scrutiny and challenge.
- No decision had been made regarding the number of houses required or possible locations for housing.
- A final decision would be made by Council once full consultation had taken place.

7. **QUESTIONS FROM MEMBERS OF THE COUNCIL**

(a) **Question No. 1 - Preparations for Retirement of a Margate GP**

Councillor Johnston asked Councillor Wells the following question:

"The announcement last March by Dr Rahman of his intended retirement at the end of September has led to 2,000 patients needing to find a new GP.

What actions have you taken through the Health and Well Being Board, CCG and especially NHS England to ensure our residents will be properly served?"

Councillor Wells responded with the following points:

- National polls suggested that 1/3 of GP's planned to retire in the next 5 years.
- The Clinical Commissioning Group (CCG) was looking ahead to support GP's by building teams of other medical professionals around GP's to create a more seamless out of hospital service.
- Thanet CCG and the Council had supported Dr Rahman's patients to register with surrounding practices.
- The Council had been assured by NHS England that surrounding practices had the capacity to take these patients.
- NHS England had overall responsibility for the provision of GP services.

Councillor Johnston asked a follow up question requesting what specifically had Councillor Wells had done, and suggested that the matter should be raised with local MP's.

Councillor Wells responded that he had had conversations with the CCG and members of the Thanet Health and Wellbeing Board, and would raise the issue when he met with MP's in November.

(b) **Question No.2 - An Update on the Work of the A&E Cabinet Advisory Group**

Councillor Dexter left the meeting for this item.

Councillor Matterface asked Councillor Wells the following question:

"On July 16th after the presentation of the A&E petition, the leader stated he would set up a Cabinet Advisory Group to consider the petition in tandem with other emerging proposals from the East Kent Hospitals University Foundation Trust.

Could we, please, have an update on this CAG?"

Councillor Wells responded with the following points:

- Cabinet was scheduled to meet on 22 Oct 2015 to agree the terms of reference of the Cabinet Advisory Group (CAG).
- Once agreed at Cabinet the CAG would meet at the beginning of November and consist of 4 UKIP Members, 2 Conservative Members, 1 Labour Member and 1 Democratic Independence Group Member.

Councillor Matterface asked a supplementary question enquiring whether the CAG was only on the Cabinet agenda because she had asked her question at Council.

Councillor Wells responded that it had always been the intention for the CAG be set up and in place to review the proposals from the East Kent Hospitals University Foundation Trust that were expected to be issued towards the end of October.

(c) **Question No.3 - Maintenance Budget for Off Street Parking**

Councillor K Gregory asked Councillor Brimm the following question:

"As the Budget setting process approaches, could I urge you to put a robust case forward to include an adequate maintenance program for our 'off street' Car Parks within next year's Council Budget?"

Councillor Brimm responded with the following points:

- Income generated from parking charges has previously been used to support other council services.
- Over the last 12 years only minor repair and patching work has been carried out to the car parks.
- The cost to resurface a car park was in excess of £100,000.00.
- There was a need to start an improvement programme as residents and visitors expect carp parks to have a good surface, clearly marked bays, good lighting and working ticket machines.
- There maybe a need to increase parking costs, however any increase would be discussed as part of the budget consultation process. A final decision would come to Council for approval.

Councillor K Gregory asked a supplementary question which enquired whether budgeting for car park maintenance would have been easier if the Council, under the previous

administration, had not been fined for its attempted ban of live animal exports at the port of Ramsgate.

Councillor Brimm responded that the money could have been spent on a number of projects. The last car park to be fully resurfaced was Joss Bay, 12 years ago.

(d) **Question No.4 - The Corporate Risk Register.**

Councillor Taylor-Smith asked Councillor Crow-Brown the following question:

"Please will the Cabinet Member for Corporate Governance Services confirm to Council that the Corporate Risk Register is an accurate and realistic reflection of our Council's business situation and that all risks are adequately covered?"

Councillor Crow-Brown responded with the following points:

- The risk register was regularly reviewed, once the new corporate plan had been agreed by Council, the risk register would be updated.
- Risks could not always be fully mitigated or eliminated, therefore it was necessary to manage risk.
- The last audit review had given substantial assurance that the Council adequately managed its risks.

Councillor Taylor-Smith asked a supplementary question enquiring why Manston Airport was no longer shown as a specific risk on the risk register.

Councillor Crow-Brown responded that Manston Airport was included within the major project heading on the risk register. He offered to respond to Councillor Taylor-Smith in writing with more detail if she wished.

(e) **Question No.5 - The Local Plan**

Councillor Partington asked Councillor L Fairbrass the following question:

"What number of empty properties will be used to reduce the build requirement for the local plan?"

Councillor L Fairbrass responded with the following points:

- Within the financial year the Council had bought 110 empty properties back into use.
- Other local authorities with active programmes to bring empty properties back into use have won concessions against new housing need. Investigation into how this had been achieved was underway.

Councillor Partington followed up her question by stating that Thanet had been ranked 11th out the 346 local authorities in the country for having the most empty properties, she enquired what would be done to ensure an adequate strategy was in place to bring empty properties back into use.

Councillor L Fairbrass responded with the following points:

- Council records showed that there were 1860 empty properties in the district, this was 2.8% of the Council's housing stock.
- The Council was looking at robust ways of getting empty properties back into use.

(f) **Question No.6 - Proposed Conservation Area in Cliftonville West**

Councillor Savage asked Councillor L Fairbrass the following question:

"The decision by Cabinet on 10th September for a consultation exercise for the proposed conservation areas in Cliftonville West, although totally laudable in its objective, invokes a requirement for Council to act competently. With a decision to proceed, does she feel there is adequate officer coverage to ensure effective implementation?"

Councillor L Fairbrass responded that she felt there would be adequate staff resource available.

Councillor Savage followed up his question by enquiring whether adequate budget would be in place to fund the staff required.

Councillor L Fairbrass responded that the resource implications would be considered as part of the budget setting process.

It was noted that no motions on notice had been received.

9. LEADERS REPORT

During his report the Leader covered the following areas:

- The new corporate plan, was for consideration by Council that evening.
- The consultants draft report for the local plan had been received and stated a requirement for 15660 new homes, the Leader would have a teleconference with the report authors and request justification of these figures.
- Dreamlands scenic railway was now open.
- The car transporter at Ramsgate port was a sign that the Port is open and ready for business.
- There had been a move from negotiations regarding Manston Airport, to an open and transparent report on the facts which was expected to come before Cabinet on 29 October 15. This date was subject the availability of the Council's legal consultant, who needed to be available to answer questions from Members.

Councillor Bayford as Leader of the Conservative Party responded with the following points:

- UKIP had lost overall control of the Council.
- The corporate plan should be based upon service plans.
- The Council had a good record of bringing empty homes back in to use. This should be factored into the local plan.
- A healthy, growing economy must have new housing to support it.
- It was good that the scenic railway was open however it was a shame that it took so long. There were rumours about financial claims against the Council connected to the Dreamland project.
- Activity at the Ramsgate Port was good, however consideration was needed about the future of the Port, if it becomes apparent that it would not be very successful. It was a valuable asset which needed to be fully utilised.
- It was surprising that RiverOak still wished to be involved in Manston Airport after such a delay. If there were valid reasons not to pursue a CPO, then these reasons should be published.

The Leader replied to Councillor Bayford's comments with the following points:

- Service plans would be merged into the corporate plan in time for budget setting later this year.
- There was a link between new jobs, inward migration and new housing.

- It would not be acceptable to comment upon rumour in relation to Dreamland.
- Propositions for the use of the Port were always welcome.
- Information around Manston Airport would become clear in the report to be considered by Cabinet on 29 October.

The Leader replied to Councillor Collins' comments with the following points:

- The UKIP party were ready and willing to launch a CPO once a suitable indemnity partner was identified.

Councillor Johnston as Leader of the Labour Group made the following points:

- It was important to keep election promises.
- The new corporate plan appeared to be an amalgamation of the four priority commitments from the previous administrations corporate plan.
- The enterprise zone expansion was to include Manston, however there appeared to be little progress on this.
- It was good to see the scenic railway in action.
- Pleased that funds had been put aside to for the dredging of Ramsgate Port to allow for car container ferries.
- The local plan should have been in place from 2011.

The Leader replied to Councillor Johnston's by thanking her for her comments.
