**Subject:** re licensing application for 72 Station Road, Birchington (Blend Coffee Lounge)

From the information provided it would appear that a change of use would occur at the premises from the A1 coffee shop . These premises are run as a coffee shop, serving light lunches and meals to which they would like to add the option to supply alcoholic beverages and open up to 2300 hours.

This would potentially change the usage to an A3 class.

Therefore the planning department currently object to the licensing application until planning permission has been sought.

Thanks you
