EXTRAORDINARY OVERVIEW & SCRUTINY PANEL

Minutes of the extraordinary meeting held on 26 January 2016 at 7.00 pm in Council Chamber, Council Offices, Cecil Street, Margate, Kent.

Present: Councillor David Saunders (Chairman); Councillors G Coleman-Cooke, Campbell, Connor, Curran, Dennis, Dexter, Dixon, Elenor, Falcon, I Gregory, Jaye-Jones, Potts and Taylor-Smith

In Attendance: Councillor Townend

39. APOLOGIES FOR ABSENCE

The following apologies were received from Members:

Councillor Parsons, substituted by Councillor I. Gregory;
Councillor Bambridge, substituted by Councillor Taylor-Smith.

40. DECLARATIONS OF INTEREST

There were no declarations of interest received at the meeting.

41. BUDGET 2016-17 AND MEDIUM FINANCIAL PLAN 2016-2020

In introducing the item for debate, Tim Willis, Director of Corporate Resources & S151 Officer said that the report before the Panel was the same as the one that was considered and adopted by Cabinet on 19 January 2016. He requested Members to note that Table 1 (External Funding) should be denoted in '£thousands' and not '£millions.' An additional recommendation on second homes discounts and empty properties exemptions for Council tax would be included in the report to go to Council on 4 February 2016 as these were Council functions rather than Cabinet.

As a prelude to presenting the budget to Cabinet a number of briefings had been held for Members to inform Members about the budget process and framework to be used to set the 2016/17 Council budget. The economic and financial environment in which the budget was being set was challenging. It was important that in making recommendations to Full Council on the budget proposals to adopt, reliable funding sources be identified.

Government Funding and Council Tax

Tim Willis advised that if the Council collected more Council Tax than it budgeted for then there would be a surplus. TDC would be entitled to keep its share of that surplus. Tim Willis confirmed that TDC was not planning to share its element of any surplus with town or parish councils; however it was up to Members to decide how the surplus would be spent. Matt Sanham, Financial Services Manager said that the expected surplus share to Council for 2016/17 was £163,000.

Medium Term Financial Plan

One Member asked whether there had been any indication on how the change to the collection business rates would work and whether the Government had made any contingency measures for disadvantaged areas like Thanet District where business growth was small. In response Tim Willis said that the situation was still not clear. However current information at hand was that Local Government would retain all of the business rates collected.

Another Member said that the challenge was that some of the more affluent councils could reduce the business rates levels in their areas and this may lead to businesses moving away from Thanet to those areas with reduced rates.

Budget Savings

The meeting was advised that officers would be providing information on the events budgets due to town and parish councils outside of the meeting. The Chairman said that it was important that town and parish councils be made aware early on of the levels of floral display and events grants they would be receiving in order for them to decide on what match funding levels would be required. Tim Willis indicated that officers would be advising Members as soon as was possible.

Rental Increases

Addressing the question on how much was being collected as result of the Pay to Stay Policy, Nikki Walker, Interim Head of Financial Services said that the initial government guidance indicated that this would be a discretionary rent policy for tenants whose household earnings were more than £60,000 per year. Additional information appeared to reflect that the policy will not be discretionary and would be mandatory.

The initial consultation document inferred the affected tenants would be required to provide evidence to their landlords about their income (through P60s) and they would then be required to pay market level rents. The extra income collected would go to the Exchequer and not the Council. Currently the Council did not operate this policy. It would be likely that further administration would be required and that TDC would have to increase the amount of management fee paid to East Kent Housing to collect these rents on behalf of the council if it chose to implement this policy.

Members observed that this policy may lead to councils being penalised whether they were able to make the collection or not. They were also concerned that the policy might lead to tenancy movement as individuals would not be able to afford the market rent levels to be charged.

Affordable Rents

The Panel was advised that information for benchmarking for market rentals was derived from Valuations Office publications and the local housing allowances produced by the Department of Works and Pensions (DWP). The idea being not to set rents at above the local allowances levels.

Capital Budget Strategy

One Member suggested that Cabinet considered a wider approach to reviewing the capital budget strategy. They said that one of the projects that could be deferred to a future implementation period was the Solar Panel Hydro Power project at the Port of Ramsgate since there was currently minimal business activity at the port. Cabinet was asked to consider cost effectiveness and the current corporate priorities in reviewing the capital programme strategy for 2016/17.

Tim Willis reminded the Panel that the General Fund revenue budget proposals were built on the assumption of the proposed capital projects going ahead in 2016/17 as some of the proposed capital projects had revenue budget implications.

Councillor I. Gregory proposed, Councillor Taylor-Smith seconded and Members agreed the 19 January 2016 Cabinet recommendations to Council, namely that:

1. Members approve the draft Medium Term Financial Plan at Annex 1 to the Cabinet report;
2. Members approve the draft General Fund Revenue budget estimates for 2016-17 to 2019-20 and the resulting budget requirement for 2016-17;

3. Members approve that the level of general reserves be held at £2.011m, and specific earmarked reserves be used as identified in Annex 5 to the Cabinet report;
4. Members approve the HRA budget estimates for 2016-17 to 2019-20 and the HRA services charges as shown at Annex 3 of the Cabinet report;
5. Members agree to a reduction in the grant to minor preceptors as per section 3.15 of the Cabinet report;
6. Members approve the General Fund and Housing Revenue Account Capital Budgets for 2016-17 as detailed at Annexes 2 and 4 to the Cabinet report;

And further agreed to recommend to Cabinet that:

7. The Panel accepts the budget as it stands with the addendum that no further capital expenditure goes ahead in 2016/17 until the capital programme has been fully reviewed.

Meeting concluded: 8.25 pm

THANET COMMUNITY SAFETY PLAN FOR 2016 – 2017

To: **Overview and Scrutiny Panel – 9 February 2016**

By: **Jessica Bailey – Community Safety Team Leader**

Classification: **Unrestricted**

Ward: **All wards**

Summary: **This report details the process undertaken by Thanet Community Safety Partnership to develop the Thanet Community Safety Plan for 2016-17.**

The report asks for the provisional themes and focus areas for the Community Safety Plan to be agreed, subject to the approval and monitoring, by the Community Safety Working Party, to enable partner agencies to work jointly to help improve Community Safety in the district.

For Decision

1.0 Introduction

- 1.1 The council has a statutory duty via the Crime and Disorder Act 1998 to work jointly with other 'responsible authorities' which includes County Council, Police, Fire, Probation and Health services, to reduce crime and disorder and reoffending through the facilitation of a Community Safety Partnership (CSP). Thanet District Council facilitates the CSP on behalf of these agencies.
- 1.2 Each CSP is required to undertake an annual assessment of all relevant agency data to identify emerging crime and disorder trends. These trends, along with feedback from public and partner consultation, then inform focus areas and themes for Community Safety Plan activity for the coming year.
- 1.3 This report identifies the process undertaken to develop the Community Safety Plan for 2016-17 and asks members to agree the focus areas and the process for monitoring delivery.
- 1.4 Due to the changes in the timetabling of meetings this year, the draft plan for 2016-17 will be considered by the CSP Working Party on 1st of February (after the deadline for this meeting's documents) and any recommendations will be available in a supplementary report and verbally on request.

2.0 Thanet Community Safety Plan 2016/17 – Process

- 2.1 The focus areas for the Community Safety Plan are established through a process of data analysis, consultation and collaborative planning.
- 2.2 Partnership data is firstly provided by all agencies, assessed by Kent County Council Community Safety Unit and then reviewed locally.

- 2.3 The initial review of data for Thanet shows a positive reduction in all crime, of 4.3%, (Jan- Dec 2015 compared to Jan – Dec 2014), which is consistent with country trends. Thanet does however still face some challenges with regards to some crime categories, deprivation and vulnerability indicators.
- 2.4 Following data analysis, a practitioner stakeholder event is then held, where officers, informed by the data and local knowledge, discuss emerging issues and share their own organisation's objectives. Over 90 stakeholders from 16 public, private and voluntary agencies attended the event, held in December 2015.
- 2.5 A draft set of focus areas are formulated and residents are then consulted for their views based on local perceptions of safety in the district. The consultation was held during January 2016 and had 393 responses, which exceeds the joint sum of previous years and 72% of respondents either very strongly, or strongly supported the proposed themes.
- 2.6 Proposals for the Community Safety Plan for 2016-17 continue on a similar focus to last year, looking at broader themes rather than individual crime types. By taking a holistic approach, action can be taken simultaneously on both disrupting those offenders that continue to cause significant harm, but also to provide continued support to those vulnerable people in greatest need.

3.0 Proposed focus areas for 2016-17

3.1 The Community Safety Plan will focus on the following focus areas;

- **Reducing Offending and Reoffending**
 - Divert first time entrants and repeat offenders from the criminal justice system;
 - Prevent low level anti-social behavior from escalating into criminality;
 - Tackle violence and crimes that cause the most harm to communities.
- **Safeguarding our most vulnerable people**
 - Identify and support those susceptible to all forms of exploitation;
 - Break cycles of abuse and vulnerability;
 - Address isolation and improve community based support .
- **Improving community confidence and agency collaboration**
 - Raise awareness and education of community safety activity across the district;
 - Integrate and co-locate services to improve delivery and replicate innovation;
 - Engage and empower communities through positive re-enforcement;
 - Use reparation and volunteer support to improve the physical environment.

3.2 These compliment the strategic priorities of the new Thanet Leadership Group which have oversight of the CSP and other key boards such as Health and Well-Being and Invest Thanet.

3.3 They also allow each of the partners to relate them to their own objectives such as the Kent Police and Kent Fire and Rescue Service control strategies. This will ensure partnership efforts compliment but don't duplicate ongoing work.

4.0 Delivery of the Plan

4.1 Unlike previous years, partners have decided not to create the action plan straight away. As the development process starts in December, some objectives that were

set were either no longer feasible for implementation by April or had changed direction. This restricted the partnership's ability to be able to respond dynamically to the most challenging issues facing the district.

- 4.2 Having broader themes, will enable a fluid partnership response to Community Safety, which can evolve and adapt as required, and be more flexible and responsive to crime trends and issues that emerge as the year progresses.
- 4.3 This also takes into consideration feedback from Community Safety practitioners and that public when they have raised additional emerging issues throughout the year, that the partnership has been restricted by the rigidity of the pre-set action plan, to having to potentially commit to resources via a plan written before the new financial years allocations were confirmed.
- 4.4 It is proposed that delivery will be managed by the establishment of task and finish groups, in early April 2016, focussing on each of the three focus areas.
- 4.4 Each group will be co-ordinated and driven by an operational lead officer, who will be supported and overseen by a strategic lead officer from a mixture of partnership agencies. This two tier structure at both an operational and strategic level, will provide a more thorough mechanism for delivery of the Community Safety Plan for 2016-17.
- 4.5 On inception, each Task and Finish project group will formulate action plans and establish realistic measures of success. It is proposed these action plans are submitted to the Community Safety Working Party for agreement at their first meeting in 2016-17.

5.0 Accountability and performance management

- 5.1 Each task and finish group will report back to the Community Safety Working Party and Executive Board at each meeting to ensure accountability.
- 5.2 Update will also be provided at a strategic level to the Leadership Board, to ensure priorities remain aligned with wider remits, and to prevent duplication with other multi agency groups.

6.0 Options

- 6.1 To approve the Draft Thanet Community Safety Plan 2016/17 themes and focus areas, as set out in Annex 1.
- 6.2 To make suggestions for additions and then approve the Draft Thanet Community Safety Plan 2016/17 themes and focus areas, as set out in Annex 1.

7.0 Corporate Implications

7.1 Financial

- 7.1.1 District Council Community Safety staff facilitate the Community Safety Partnership alongside their TDC function of anti-social behaviour case management. Salaries for these staff are covered within the budget for 2016-17.
- 7.1.2 The Kent Police and Crime Commissioner (PCC) has confirmed the CSP will be awarded a grant of approximately £31957 depending on their final government

settlement. This will be available for the Task and Finish groups to ensure delivery of the actions and expenditure will be agreed by the TCSP Executive Group.

7.2 Legal

- 7.2.1 In relation to any decision or project implemented by any department in the local authority, under section 17 of the Crime and Disorder Act 1998, the local authority has a duty to do all that is reasonable to prevent crime and disorder.
- 7.2.2 This Community Safety Plan provides evidence of compliance by the District Council and other responsible authorities of the statutory functions contained within the Crime and Disorder Act 1998 and subsequent updates in other legislation.

7.3 Corporate

- 7.3.1 The draft Community Safety Plan priorities in 2016-17 support the corporate plan objectives, Priority 1: A clean and Welcoming Environment and Priority 2: Supporting neighbourhoods. This directly supports 'continuing to work with partners to improve community safety'. Taking a partnership approach also supports corporate value 1: Delivering value for money, particularly around targeting resources and delivering more cost effective services.

8.0 Recommendation(s)

- 8.1 That, taking into consideration recommendations from the CSP Working Party meeting on the 01 February 2016, the Overview and Scrutiny Panel recommends to Cabinet the focus areas in the Thanet Community Safety Plan 2016/17 as set out in Annex 1 are approved.

9.0 Decision Making Process

- 9.1 As the Community Safety Plan is a policy framework document, this report will go to Cabinet with final approval reserved to Council.

1. Foreword

Welcome to our Community Safety Partnership Plan for 2016-17, which outlines how all of the agencies are going to collectively tackle crime and disorder issues in Thanet this year.

The plan also updates residents about what we achieved in 2015-16. We would like to thank all of the agencies within the partnership, who have jointly worked to achieve a number of positive outcomes.

We would also like to thank the Police and Crime Commissioner for Kent, Ann Barnes for her continued support of Thanet Community Safety Partnerships (TCSP) having agreed a grant of £31,957 for 2016-17. The fund is used to pilot and plan activity that is outside of the core budgets of the agencies meaning we can look at new and innovative approaches to resolve issues. Part of this money is also set aside for residents and volunteers to bid into for small amounts that will have a big impact to locally driven initiatives.

We continue to see reductions in all crime, of 4.3%, (Jan- Dec 2015 compared to Jan – Dec 2014) but continue to face challenges around violent crime and the underlying causes that contribute to people committing crime or disorder. We also recognise that reacting to issues with enforcement is not always the right route. Therefore the CSP will work alongside other key boards in the district such as the Health and Well-Being Board and Invest Thanet to tackle the root causes. Section 4 explains this in more detail.

As part of this we welcome the Margate Taskforce into the Community Safety Partnership structures. They have undertaken innovative activities using their 'Social Justice model' within their focus wards of Cliftonville West and Margate Central. Whilst they will continue to focus on these areas, the activity will be replicated in others areas of need across the district. Early 2016 will see a wider co-location of key agencies in the Council offices. This will mean better sharing of information and quicker multi-agency responses to problems.

There have been a number of threats across the UK and wider, that mean we need to continually re-assess where our resources are directed, to target them most effectively to have the greatest impact. 2016-17 sees a continuation of the thematic approach we introduced last year. This allows us to approach our work flexibly.

Our focuses for the year therefore are;

1. Reducing offending and Re-offending
2. Safeguarding our most vulnerable people
3. Improving Community Confidence and agency collaboration

As ever the views of residents are extremely important to us. We have undertaken a number of consultations on this document and appreciate regular feedback at our many public engagement sessions. Working together as agencies with the support of local organisations and residents will all help towards our aim of making Thanet a safer place.

Chief Inspector Sharon Adley
Thanet District Commander
Kent Police

Cllr Lin Fairbrass
Cabinet Member for Community Safety
Thanet District Council

2. Background and context

2. Who are Thanet Community Safety Partnership?

The Crime and Disorder Act 1998, changed the way crime and anti-social behaviour was to be tackled, as it is recognised that in order to be effective, agencies needed to work together to address the issues collectively. Each local area formed a Crime and Disorder Reduction Partnership (CDRP) which are now called Community Safety Partnerships (CSPs).

Thanet's Community Safety Partnership (TCSP) is made up of key statutory partners that must ensure specific obligations such as public engagement and delivery of an action plan are met.

Our statutory partners are: Thanet District Council, Kent County Council, Kent Police, Kent Fire and Rescue Service, Kent Probation Community Rehabilitation Company and Thanet Clinical Commissioning Groups (which have the responsibility for health services locally).

We also work with a large number of other public and private sector partners as well as voluntary and community groups to collectively implement and deliver initiatives that will help all areas of Thanet become a safe place to live, work and visit.

Why do we have a plan?

The Crime and Disorder Act 1998 places obligations on the Community Safety Partnership to produce an annual Community Safety Plan, to outline how all partners intend to work together to impact upon crime and disorder, substance misuse and reduce reoffending in the local area.

How does this link with the national, county and local context?

In developing this plan a number of relevant strategies and plans were considered. This ensures that we comply with relevant national and local strategic direction. These plans include but are not limited to:

- *Kent Community Safety Agreement 2014-17*
- *Thanet District Council Corporate Plan 2015-19*
- *Kent Police Control Strategy 2015-2018*
- *Police Crime Commissioner Plan 2013-17*
- *Kent Fire and Rescue Service Safety and Wellbeing Plan (2016-18)*
- *Kent and Essex Police Gangs Strategy 2016*
- *Kent and Medway Domestic Abuse Strategy 2013- 16*
- *Kent and Medway Strategic Plan for Reducing Reoffending (2012-15)*
- *Legal Aid, Sentencing and Punishment of Offenders Act 2012*
- *Protection of Freedoms Act 2012*
- *Police Reform and Social Responsibility Act 2011*
- *Anti-Social Behaviour, Crime and Policing Act 2014*
- *Offender Rehabilitation Act 2014*
- *Children and Families Act 2014*
- *Helping Troubled Families turn their lives around (Home Office 2013)*
- *Prevent Strategy 2011*
- *Counter Terrorism and Security Bill 2015*
- *Ending Gang Violence and Exploitation 2016*
- *Information sharing Agreement for Kent and Medway v 4 (Last updated 2014)*

3. Key achievements for 2015/16

Last year's community safety plan focused on four themes with a total of 30 actions. 6 have been fully completed as this plan was being produced and the remaining 24 are well underway to completion. A summary of the key achievements in each theme can be found below.

Safeguarding People vulnerable to committing or being a victim of crime

- Strengthened the ways we work jointly to support vulnerable young people,
- Delivered intensive multi agency family support at 15 family support panels, and improved joint working with social services
- Working with the Home Office as part of the Ending Gangs and Youth Violence peer review and have shared best practice
- Challenged inappropriate out of area placements of vulnerable people
- Produced an e-learning package for training on Domestic Abuse legislation changes
- Raised awareness and shared best practice around Domestic Homicide reviews

Reducing re-offending

- Police continue to use personal body worn cameras as a visible deterrent and to improve evidence capture and 8 licensed premises have also adopted this provision
- Joint agency work in tackling repeat and persistent Anti-Social Behaviour
- Seconded an Early Help worker into the Margate Task Force to strengthen diversionary support to those at risk of offending
- Made better use of positive role models , through supporting the 'Say it' Child Sexual Exploitation programme intervention in local schools
- Delivered a gangs 'outreach' programme for young people, with St Giles Trust

Tackling the drivers of crime and anti-social behaviour

- Extended availability of 'One Stop Shop' support services, 14 'Neighbourhood Responsibility Panels' have been held, supporting 21 clients.
- Delivered additional training for front line workers around Mental Health, championing the dual diagnosis programme
- Co-ordinated and supported delivery of the Thanet Alcohol Strategy
- Undergone and delivered training on 'online safeguarding ' and 'Preventing Extremism'.
- Continued to support the Community Pastor Scheme – 58 patrols were carried out over peak periods, which equated to 1200 volunteer hours. Direct advice and support was given to 1758 people.

Engaging with partners and the community

- Reviewed existing engagement provision in schools – over 1500 pupils engaged with
- Consulted with young people through Kent Youth Service to understand their views
- Invited schools into the council to meet with CSP agencies
- Developed an extensive communications programme and continued to put messages out on all media platforms to raise awareness of CSP services and projects
- Held 17 public meetings and increased responses to our annual safety consultation , particularly including a younger demographic

4. Partnership Structure

The Community Safety Partnership is responsible to the Thanet Leadership Group and the Community Safety Working Party (sub group of Overview and Scrutiny Panel)

Leadership Group

This group consists of senior managers of the key agencies and provides strategic oversight to the Community Safety Partnership, as well as other multi agency structures including the Health and Wellbeing Board and Invest Thanet. The purpose of the Leadership Group is to align these three boards around three strategic priorities for the district:

1. Safeguarding Young People
2. Improved Mental Health
3. Young People get the Best Start in Life

Community Safety Partnership

Agencies of the partnership meet throughout the year via a number of different forums aimed at coordinating activity, monitoring trends and ensuring clear information sharing.

Executive Group

Is made up of managers from the statutory agencies and other partners who oversee the decisions and direction of the Community Safety Partnership. They are responsible for agreeing and ensuring their organisations help to implement the Community Safety Plan.

Community Safety Partnership Scrutiny working group

This group is coordinated by the District Council political members and provides a scrutiny function, ensuring all processes have been complied with and that partners are working together. The group also holds the agencies to account on delivery of the action plan.

Community Safety Conference

This is an annual practitioner meeting where the strategic assessment data is reviewed and verified by wider partners, best practice is shared and ideas generated to inform and draft the annual community safety plan.

Delivery groups

Thematic delivery groups ensure the Community Safety Partnership is delivered operationally. These groups focus on developing specific actions under each of the partnership themes, as well as driving forward any longstanding initiatives included within the partnership, such as the Margate Task Force, who along with the combined Community Safety Unit will now undertake activity district wide.

The delivery groups remain dynamically responsive to any issues as they emerge, whilst providing a partnership response to the Community Safety focus areas and are accountable to the Community Safety Partnership Executive Group.

Monthly (Multi-Agency) Casework Meetings

The main operational meeting that meets monthly, is the Community Safety Casework Panel Meeting, and is attended by front line practitioners to review and discuss high and medium risk cases that require multi-agency enforcement. This is to ensure joined up working, prevent duplication and ensure information is shared reducing the chance of cases being ignored. There are spin off meetings that also meet to discuss additional risks and support needs, such as mental health and offender management.

Community Safety (residents) Forum

This is a focus group that meets annually that includes local Councilors, neighbourhood watch coordinators, chairs of resident associations and other public groups to meet with senior managers from each of the CSP agencies to look at the strategic planning, discuss areas to focus on issues and find out about the progress of the partnership against its action plan. It is also an opportunity for residents to get involved in Community Safety projects.

Neighbourhood Engagement Meetings

The partnership also delivers Neighbourhood Engagement Meetings to identify the issues that matter most to residents in our local communities. The district is divided into North, East, South and West geographical areas – with those living in more rural areas attending whichever location is closest and most relevant to them. A quarterly meeting takes place for each area.

The NEM meeting is attended by a range of partners including police officers and PCSOs for that area, district council representatives and KCC Wardens. Members of the community are free to pose questions or make observations about their area, even down to street level. Meeting dates are advertised on the Kent Police and Thanet District Council Websites in advance and are an opportunity to collectively problem-solve community safety issues.

5. How does it all work?

Strategic Assessment

The Community Safety Partnership has to identify emerging crime and disorder trends and this is done through the production of a Strategic Assessment of the district. Data is analysed from all of the partners to produce recommended themes to focus on.

These themes are then compared with other districts and ranked against a number of factors, including volume, trend over time, resident's perception and how much it is felt the partnership can influence. The top ranked themes are analysed in greater depth, to help guide practitioners in formulating actions that they feel will have an impact on each focus area.

Stakeholder Consultation

Each year we ensure that we consult on Community Safety focus areas with residents' and partners and also ensure we are accountable by feeding back on our progress. We do this by meeting with residents at the community safety forum and neighbourhood engagement meetings as well as holding practitioner meetings throughout the year.

In December we held a Community Safety conference for practitioners to review provisional areas to focus on and in January ran a consultation event asking for residents views on wider community safety issues, as well as the proposed themes for 2016-17 to ensure we understand the issues that impact most on our communities.

Producing the Plan

Following on from the data assessment and partner/public consultation, specific actions are developed by partners that aim to make an impact on the themes and focus areas that we have established. The plan is then delivered throughout the financial year of April – March, with regular performance monitoring to make sure we are achieving what we set out to.

Scrutiny and monitoring

The Community safety Plan is reviewed and scrutinised by a series of groups including the Community Safety Working Party, CSP Executive and formal Council scrutiny meetings. Once agreed, further monitoring is undertaken throughout the year.

6. Our plans for 2016/17

There remains a continued need to target the resources we have most effectively to have the greatest impact around those that pose the greatest threat of risk or harm, whilst remaining flexible enough to adapt to issues quickly as they emerge.

A review of agency data shows that Thanet continues to face challenges across a number of crime types, as well as high demand on services, high levels of deprivation and unemployment.

Proposals for this year therefore continue to adopt a thematic approach, taking into consideration the ongoing strategies of CSP partners, by providing a series of aims which will continue to evolve and respond dynamically to issues as they emerge.

1. Reducing offending and Re-offending

We aim to:

- Divert first time entrants and repeat offenders from the criminal justice system
- Prevent low level anti-social behavior from escalating into criminality
- Tackle violence and crimes that cause the most harm to communities

2. Safeguarding our most vulnerable people

We aim to:

- Identify and support those susceptible to all forms of exploitation
- Break cycles of abuse and vulnerability
- Address isolation and improve community based support

3. Improving Community Confidence and agency collaboration

We aim to:

- Raise awareness and education of community safety activity across the district
- Integrate and co-locate services to improve delivery and replicate innovation
- Engage with and empower communities through positive re-enforcement
- Use reparation and volunteer support to improve the physical environment
