## THANET HEALTH AND WELLBEING BOARD

Minutes of the meeting held on 8 November 2018 at 10.00 am in the Austen Room - Council Offices.

**Present:** Councillor Bayford (Thanet District Council), Councillor Game (Thanet District Council), Mr Hart (Thanet Clinical Commissioning Group), Ms Homer (Thanet District Council), Ms McLaughlin (Thanet Children's Committee), Ms Ogilvie (Thanet Clinical Commissioning Group) and Ms Sykes (Voluntary Sector Adult Services)

**In Attendance:** Ms Button, Ms Haywood, Ms O'Rourke, Ms Reeves, Mr Rouse and Mr Timson.

### 1. APPOINTMENT OF CHAIR AND VICE CHAIR FOR 2018/19

It was noted that the meeting was inquorate, therefore the Board was unable to appoint a Chair or Vice Chair for 2018/19. However Councillor Bayford proposed, Councillor Game seconded and the Board agreed that Ms Ogilvie would Chair the meeting on this occasion.

### 2. APOLOGIES FOR ABSENCE

Apologies were received from Councillor Gibbens.

### 3. DECLARATION OF INTEREST

There were no declarations of interest made at the meeting.

### 4. MINUTES OF THE PREVIOUS MEETING

The minutes of the meeting held on 11 January 2018 were noted as correct subject to some typographical corrections.

### 5. THE ACTIVE THANET STRATEGIC FRAMEWORK 2018- 2022

Mr Rouse, Sport & Public Health Development Officer gave an overview of the Active Thanet Strategy. A copy of the presentation had been attached to the minutes. During consideration of the item it was noted that:

- Active Thanet had been created due to the need to re-engage with the residents of Thanet. It recognised that behaviours had changed over time, for example, the use of social media had increased and computer gaming had made some elements of the community more isolated and sedimentary.
- The framework revolved around collaboration and partnership working. There would be a partnership meeting on 29 November 2018.
- TDC had created the framework as a starting pointing from which to engage with partners including the voluntary sector which would be a valuable resource to draw upon.

### 6. COMMISSIONED SERVICES FOR SUPPORTING VULNERABLE YOUNG MOM'S (FAMILY NURSE PARTNERSHIP)

Ms McLaughlin, District Manager Early Help and Preventative Services and Chair of the Thanet Local Children's Partnership gave an update regarding the Family Nurse Partnership (FNP). The presentation had been attached the minutes. During consideration of the item it was noted that:

- The scheme had supported first time mums under the age of 19 until the child's second birthday, however commissioning for the FNP had not continued in Kent and referral's to the service had stopped.
- It was proposed that the FNP would be replaced by a similar service with a wider remit that would assist vulnerable mums of any age for a similar two year time period. The proposal was seen as more equitable; it would have more practitioners and reach more mothers in need of the support.

## 7. LOCAL CHILDREN'S PARTNERSHIP PRIORITIES, GRANTS AND GENERAL UPDATES

### **Social Prescribing and Poverty**

Ms Reeves, Unit Lead Thanet Early Help provided the board with an update on some of the work that had been carried out by Thanet Early Help. During consideration of the item it was noted that:

- The aim was to provide support as soon as problems emerged this relied upon local agencies working together.
- Measures of success included a reduction in the number of exclusions from school, less interventions and an improved level of attendance.
- Social prescribing required an understanding of the issues in place these were often determined by social, environmental and economic factors.
- A pilot was carried out at Drapers Mill school; it asked the question 'what matters to you?' Drop in sessions were held and found to be successful. The sessions allowed people to see what services were available to them.
- More funding was needed for early years and speech and language support as this could help prevent problems developing as children became older.
- The KCC integrated Children's Services webpage can be found using the following link:  
<https://www.kelsi.org.uk/integratedchildrenservices>

### **Thanet Local Children's Partnership Chair's Update**

Ms McLoughlin, provided an update to the board. The slides had been included in the minutes. During consideration of the item it was noted that:

- KCC Cabinet had agreed that there would be changes to the Local Children's Partnerships, District Advisory Boards and Youth Advisory Boards. It was agreed that Local Children's Partnership's should be Member-led going forward.
- Three options were under consideration and the final proposal would be presented to Children's, Young People and Education Cabinet Committee in January 2019. Implementation was expected in April 2019.
- The portal for applications for Early Help Grants in 2019 would be open around 26 November 2018. Applications would be shortlisted between 8-11 January 2019 and final approval would be granted by 7 February 2019.

## 8. THANET LOCAL CARE UPDATE

Mr Timson, Head of Local Care for Thanet provided the Board with the update. During consideration of the item it was noted that:

- Local Care was an NHS department tasked to work in partnership with local services to improve the health of local people. East Kent had been split into four local care areas to ensure a local focus was maintained.
- Thanet's Acute Response Team (ART) had been successful in helping people stay out of hospital; people received the support they needed in their own homes. Due to its success this model maybe adopted across the rest of East Kent.
- Extended access to GP's was a National and East Kent project designed to help people get GP appointments. From 1 October 2019 there were 70 hours of additional GP appoints available within the District each week. These were available in the evening and on the weekend.
- Multi-disciplinary meetings had begun in the last three months, and were gaining momentum as the benefit to patients became evident. Representatives from a group of organisations met to identify what support could be provided that would have an impact on an individual's health and wellbeing who were often old or frail.

## 9. UPDATE ON CHILDREN'S AND MATERNITY SERVICES

Ms O'Rouke, Head of East Kent Children's Commissioning Team, and Ms Haywood, Commissioning Manager Maternity and Acute Pediatrics presented the update to the Board. The presentation was attached to the Minutes. During consideration of the item it was noted that:

- The commissioning team was responsible for ensuring the NHS spent wisely on children's services and that a high standard of service was maintained.
- In 2017/18 there was 30% target referral rate for children and young people with a diagnosable mental health condition to access treatment, this rose to 32% in 2018/19. Thanet had met this target and was the best performing area in East Kent for this measure; however it was felt by members of the Board that 32% was a low target.
- The stop smoking at home maternity visit scheme had seen a 60% success rate and would receive further funding in Thanet.
- It was hoped that at six weeks following the birth, there would be a mental health check for the mother carried out by GP's.

Meeting concluded: 12.05pm

# Thanet District Council - Active Thanet Service

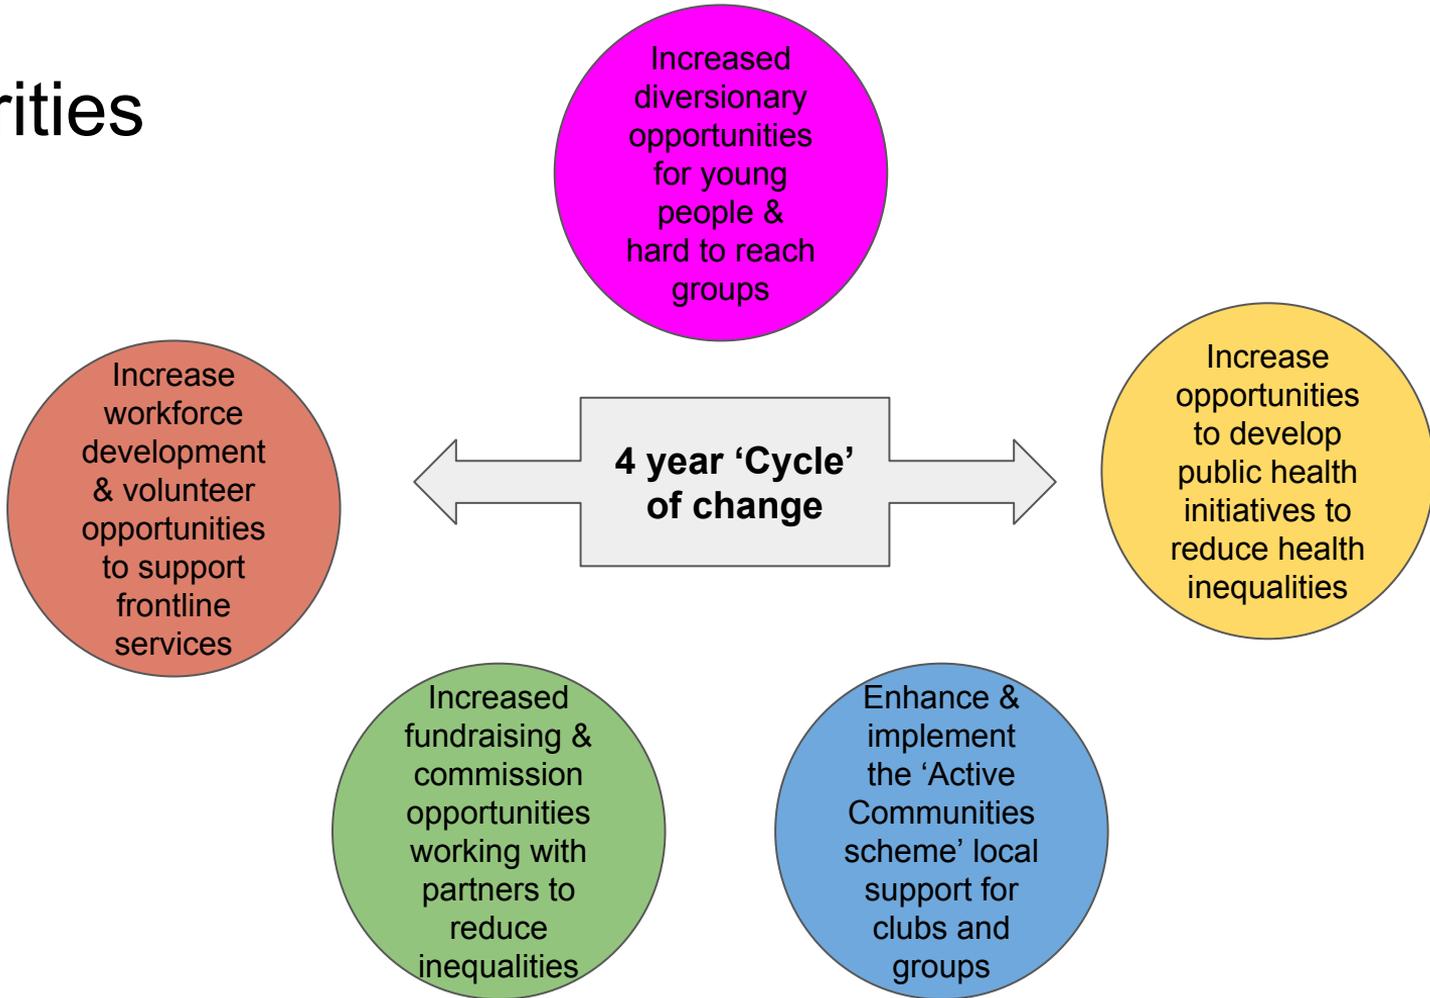

# Overview

- Active Thanet has replaced the previous sports development service at Thanet District Council.
- Service has developed a new framework which aims to focus on more than just ‘sport for sport sake’ but to work with partners to tackle wider health inequalities to promote a healthier and active Thanet.
- Our new framework highlights the huge ‘importance’ of partnership working by sustaining and enhancing partnership working to bring in external funding and help share resources.
- Framework will work towards ‘five’ key priorities and will work towards a 4 year cycle of change up to 2022.
- Active Thanet will use physical activity interventions to achieve these goals.

# Why Active Thanet?

- Nationally, many sports development functions no longer exist, moving into a community development function or outsourced to other leisure providers.
- Active Thanet has transformed our service to coincide with national policy to support wider Sport England, Public Health and NHS policy.
- Active Thanet is committed to empowering and commissioning services to local groups and organisations to work in 'collaboration' to achieve joint outcomes.
- We realise that there has been a shift in 'apathy' and 'behaviour change' in our communities. We need to work with partners to best address these target audiences but realise it is a joined up approach.
- Thanet still suffers from the highest levels of poverty and inactivity across Kent
- Active Thanet will host our first networking meeting on the 29th November..

# Priorities

# Impact so far

- During the last 3 years we have secured 'revenue' funding of over **£97,610**
- Since Active Thanet was adopted we have secured **£20K** in revenue funding for community projects including partnerships with East Kent Housing, Orbit Group, StreetGames, KCC Public Health and Your Leisure.
- Advertising for a new Sport and Public Health apprentice to support Active Thanet service.
- Recruited '4' flexible coaches to support service delivery.
- Rebranded our youth diversionary project to develop a new 'leisure centre hub'
- Commissioned external funding to deliver the 'Fit and Fed' project and KCC smoke free school gates.

Do you smoke?

Would you be disappointed if your children smoked?

Your Children  
Thank you for not smoking at the school gates

# Projects and planning

Application submitted to for £40K to deliver Active Minds, Mental Wellbeing project April 2019

**DWP** Department for Work and Pensions

New Sports4good cluster developed £5K investment to tackle inactivity and reduce holiday hunger for young people in Thanet

Funding secured and ongoing discussion in place to fund wider 'families' physical activity programme

New 'Pumped project running. Plans to expand this service continue to engage more young people in leisure centres

Secured £10K from EKH to deliver a Health outreach project to consult and signpost residents into local opportunities.

# Projects and planning

Exploring working with Street Games to submit an expression of interest to tackle childhood obesity trailblazer programme.

[Click here to find out more about our Beat the Street programme](#)

Exploring working with partners to bring Beat the street to Thanet, or East Kent to work with young people and inactive adults.

Funding to deliver a dementia swimming programme working alongside Your Leisure.

# Family Nurse Partnership in Kent

**Family Nurse Partnership (FNP) is a voluntary home visiting programme for first-time young mums and families, designed to help parents have a healthy pregnancy, improve their child's health and development, plan their own futures and achieve their aspirations.**

The clinical approach underpinning FNP is strengths-based; nurses work alongside clients providing information and guidance about six specific domains relating to their pregnancy and parenthood. Through this, they support them in making positive decisions about their lives and the life of their baby. The six key domains are:

- **Personal health**
- **The maternal role**
- **Life course development**
- **Family/friends**
- **Environmental health**
- **Health and human services.**

# Family Nurse Partnership in Kent

The commissioning for FNP has not continued in Kent and FNP are not taking on any further referrals

Instead Kent is commissioning a new service called FPN (Family Partnership Nurses I think)

This new service will have a wider remit than FNP and will offer a similar programme to the FNP but will be able to work with vulnerable mon's of any age and possibly second time moms also

---

Presentation to practitioners in the new service 11<sup>th</sup> December so until then we have only brief details available.

# Thanet Local Children's Partnership Group Update to Thanet Health and Wellbeing board

# LCPG Chair's Updates

- Paper to cabinet revising the LCPG, District Advisory Boards (DABs) and the Youth Advisory Group (YAG) went to cabinet committee 25<sup>th</sup> September 2008
- Members at CYPE Cabinet Committee were keen to ensure that these governance structures continue to be fit for purpose by becoming better integrated, resulting in a principle agreement to move towards one 0-19 (and up to 25) local partnership body, which would be Member-led.

# LCPG Chair's update

## Three Options

- **Option 1: 0-25 Partnership Advisory Group**

A unified strategic advisory group, focused across the 0-19 (up to 25) years non-statutory Children's Services agenda in each District.

- **Option 2: Combine the YAGs and DABs and continue the LCPG**

To align the current structures and agendas of the 0-19 (and up to 25) years on-statutory Children's Services by combining the YAGs and DABs into one advisory group in each District, reporting to the LCPG

- **Option 3: Do nothing**

To continue with the current structure and governance arrangements.

# LCPG Chair's update

- **ACTION: LCPG Chairs to speak to their Groups, to offer the opportunity to provide further feedback to be considered.**

In terms of timescale, Stuart Collins confirmed that the final proposal will be presented to CYPE Cabinet Committee in January 2019 and therefore, implementation wouldn't be expected to be completed until April 2019, giving time to agree terms of reference and hold induction sessions. An interim report will be shared with Chairs ahead of being submitted for publication for the Committee.

# Early Help Grants Updates

Provider	Project	Referral pathway
GAP	Youth sessions in Broadstairs	Self managed by the organisation
Community Driving School C.I.C	Four Driving lessons for NEETs	Via the NEET Meeting chaired by District Manager
KRAN	ESOL for NEETs	Identified by EH / NEET meetings etc
Thanet Community Development Trust	CSCS card for 36 NEETS	Via the NEET Meeting chaired by District Manager
Friends of Foreland	Train the Trainer Makaton	Self managed by the organisation
Young Lives Foundation		
Pipeline	Aspire NEET course	Self managed by the organisation
Aim 4	Art in the Copse - Newington	Mix of organisation networking and signposting by other orgs
Oasis	Just so you know project in five schools	Self managed by the organisation

# Early Help Grants 2019

Task	Deadline
Portal open for applications to EH Grants	26 November (tbc)
Deadline for applications	Midday 4 January 2019
Submitted applications to be sent to DPMs/ LCPG panels for review	7 January 2019
LCPG EH Grant panels to shortlist applications	8 – 11 January 2019 (date to be set)
Final decision of who to interview to Project Officer	11 January 2019
LCPG meet applicants (Dragon's Den)	21 January – 1 February (date to be set)
Agree awards and confirm to Project Officer	by 7 February 2019

Ashford Clinical Commissioning Group, Canterbury and Coastal Clinical Commissioning Group,  
South Kent Coast Clinical Commissioning Group and Thanet Clinical Commissioning Group.

## Hospital admissions

Hospital admissions for the following reasons were highest in Thanet CCG based on the most recent data available AND have been increasing overall over the time period data is available for:

Emergency admissions for babies under 14 days of age

Admissions for respiratory tract infections in infants aged under one year

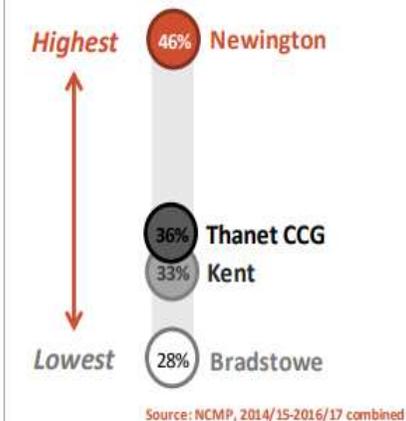

Emergency admissions for people aged 0-4 and 0-19 years

Emergency admissions for deliberate and unintentional injury among people aged 15-24 years were highest in Thanet CCG, but have been decreasing since 2010/11

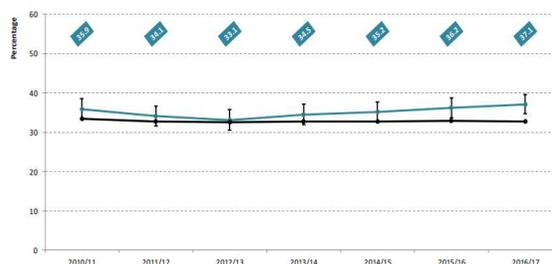

## Ward-level excess weight (Year 6)

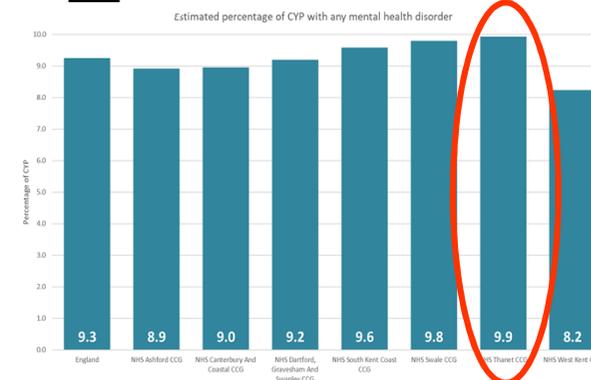

The percentage of Year 6 children with excess weight has been increasing in Thanet and was the highest of all Kent CCGs based on 2014/15 to 2016/17 pooled data. The same is true for year 6 children classified as obese. Excess weight and obesity levels are also rising among Thanet's reception children

Excess weight in year six children aged 10-11 years: trend  
Percentage of year six pupils measured as overweight or obese, Body Mass Index greater than or equal to the 85th centile of the UK90 growth reference according to age and sex, 2010/11-2016/17

## Mental Health

Highest estimated percentage of CYP with a diagnosable MH condition of all Kent CCGs

## Life expectancy at birth

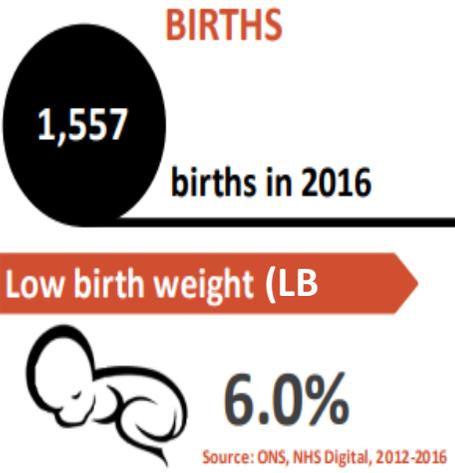

77.9 years for males

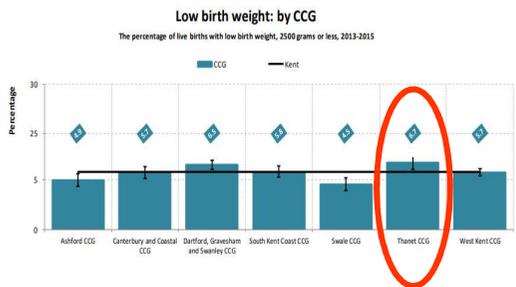

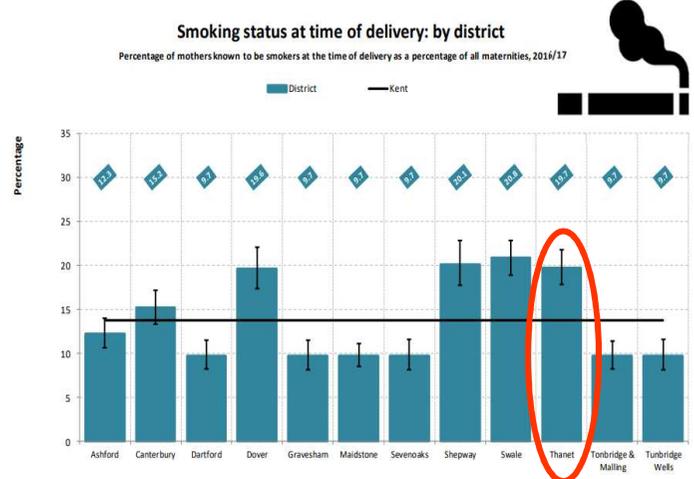

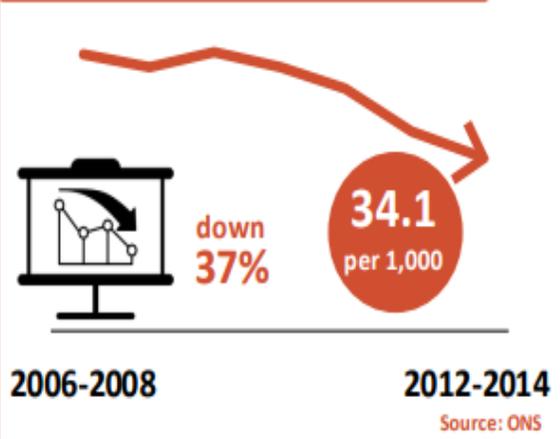

82.2 years for females

Life expectancy at birth for both males and females is the lowest of all Kent CCGs

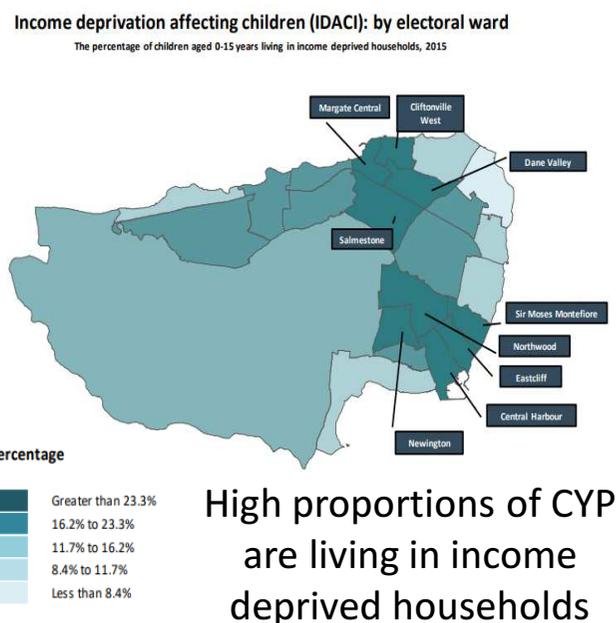

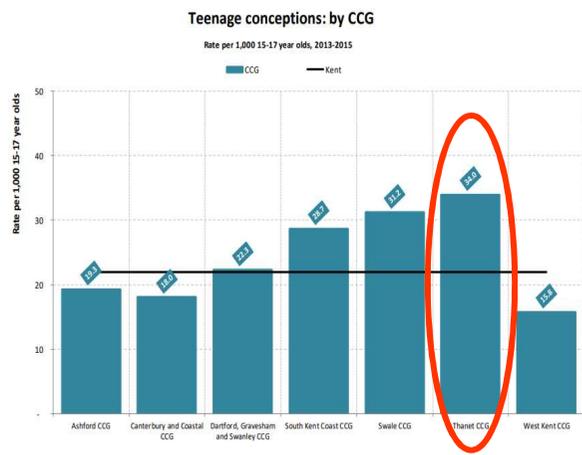

### Teenage conceptions

Teenage conceptions for Thanet CCG are decreasing; however the rate for Thanet CCG was still the highest of all Kent CCGs based on 2013-2015 pooled data

In 2016/17, one in 5 mothers were known to be smokers at time of delivery

High proportions of CYP are living in income deprived households

Between 2012 and 2016, 6.0% of births within Thanet CCG were classified as LBW (<2500g). While there is considerable annual variation, based on pooled data for 2013-2015, Thanet CCG had the highest percentage of LBW babies of all Kent CCGs

# Our priorities-why are they important

## Maternity:-

- In 2016 *Better Births* set out the Five Year Forward View for Maternity services in England. *Better Births* recognised that delivering the vision of safer and more personalised care would rely primarily on local leadership and action. Consequently, it was recommended that commissioners, providers and service users come together as Local Maternity Systems (LMS) to deliver local transformation. KCC Public Health are part of the LMS. We have submitted an STP LMS Transformation Plan to NHSE.
- This will involve the implementation of a new national service specification for maternity and an aspiration for a single contract for maternity services across the Kent and Medway footprint.
- The *Better Births* journey takes us to implementing the recommendations by 2020/2021. Maternity transformation is in the CCG planning guidance deliverables for 2018/2019 and this includes the implementation of the Saving Babies Lives Care Bundle which has smoking in pregnancy as part of the action.

## Mental Health:-

- Mobilisation of new CYP EWMHS. Contract=5+2 years
- ND pathway-new model in new service and historic waiting list issues currently being addressed
- Transformation-Programme of investment until 2021. Monitored by NHSE and regular assurance docs submitted for scrutiny-NHS England have determined that the key measure of the success of the national Transformation programme is to increase access to treatment, so that 35% of children and young people with a diagnosable mental health need can access treatment in 2020/21. To achieve this, there are incremental annual targets for CCGs to meet and in 2017/18 we should enable 30% of children and young people with a diagnosable mental health need to access treatment, rising to 32% in 2018/19. Key deliverables under Transformation include CRISIS care transformation, LAC, Transforming care/Health & Justice and ND pathway.

## Community Paediatrics:-

- RCPCH reviews commissioned by EKCCG's. Action plan developed-delivery against recommendations by Feb 19. RCPCH to then revisit to review success against the recommendations. Also forms part of CCG contract negotiation dispute with Provider.
- Workforce issues are challenging. Recruitment/retention of Doctors is a National concern.
- Staff contribute to EHC plans, ND pathway and LAC pathways.

## SEND:-

- Joint inspection due within 4 years-CCG requirement to self assess to ensure readiness.
- Joint strategy with KCC
- DMO/DCO sits within CCG responsibility.
- New pilot Tribunal process-Health can now be held to account legally
- Health contribution to EHC plans

## Acute Paediatrics:-

- Need for pathway review following recent POD audit
- Requirement to see reduced numbers of CYP in A&E

## Transforming Care:-

- Programme delivery until 2019.

## Kent and Medway performance against the NHS England Access target

*To enable 32% of CYP with a diagnosable MH condition to access treatment in 2018/19*

Area	Predicted 2018/19 performance
NHS ASHFORD CCG	32.9%
NHS CANTERBURY AND COASTAL CCG	35.3%
NHS DARTFORD, GRAVESHAM AND SWANLEY CCG	26.2%
NHS MEDWAY CCG	22.7%
NHS SOUTH KENT COAST CCG	34.5%
NHS SWALE CCG	22.7%
NHS THANET CCG	40.0%
NHS WEST KENT CCG	21.9%
<b>KENT, SURREY AND SUSSEX Region</b>	<b>24.7%</b>
<b>KENT &amp; MEDWAY STP</b>	<b>27.7%</b>
<b>ENGLAND</b>	<b>27.0%</b>

### Predicted access performance

Based on data from April to June 2018, this table shows predicted performance across Kent and Medway against the 32% access target

NHS Digital predictions suggest 32% target will be met in EK CCGs, but not WK or NK CCGs

*NHS Digital account for seasonal variation in their calculations, based on each CCG's level of variation in 2017/18*

Source: NHS Digital / NHS England

2018/19 predictions based on April -June 2018 data

# Our Response

## CYP Emotional Health & Wellbeing

### Porchlight Adolescent Wellbeing Service

- 10 young people are currently receiving support.
- 15 young people have successfully completed an intervention.
- 14 young people have received an initial visit from a worker, and 40 more are waiting for an initial visit.
- A parenting group is being organised for Spring 2019.

### BeYou

- Thanet CCG (along with the other East Kent CCGs) have recently commissioned the BeYou project, which supports young LGBTQ people through peer support groups and an online directory of support and information. Staff recruitment is currently underway. A parent rep from the Thanet area has been identified.

### Mind and Body Programme

- A cohort of young people in Royal Harbour Academy Lower School and Royal Harbour Academy Upper School has recently finished their interventions.
- A further cohort of young people in Royal Harbour Academy will begin in early November.
- A cohort of young people receiving the Mind and Body Programme in the community has finished their interventions.
- Meetings have taken place with Charles Dickens School and Hartsdown Academy and start dates will be confirmed shortly.

### Good Mental Health Matters

- 19 schools within the Thanet district have signed up to the Good Mental Health Matters school portal. This free teaching resource for Years 6 - 13 includes vlogs, lesson plans and resources to enable teachers to lead classes in discussing the 5 steps to Good Mental Health.
- A Thanet primary school is involved in the development of a primary school-aged resource, which will be launched in Spring 2019.

### Local Children's Partnership Group

- Our CCG lead for the Thanet LCPG has recently chaired an Emotional Wellbeing and Mental Health sub-group. As a result, Thanet CCG is leading work with Early Help and the voluntary and charity sector to pull together a local emotional wellbeing and mental health service director. In addition, a networking event for Thanet will be arranged in April 2019 to increase connections across primary care, health, schools, the voluntary and charity sector and Kent County Council.

# Our Response

## Maternity

### Smoking in Pregnancy (SATOD Thanet CCG 2017/2018 – 21%): LMS Prevention Work Stream

- Additional training for Midwives – Challenging conversations and reinforcement of the BabyClear pathway, resources for Midwives
- Specialist Midwives for Smoking in Pregnancy – temporary posts
- Stop smoking advisors offering home visits (KCC commissioned service)
- Speakers into the maternity entrance at QEQM
- LMS supporting through communication with all Trusts. Expectation: 95% CO monitoring at booking, 90% referral to stop smoking services (home visiting), collection of SATOD data at 36 weeks.

### Saving Babies Lives Care Bundle – 4 elements: LMS Safety and Quality Work Stream

- Reduction in smoking in pregnancy
- Risk assessment and surveillance for fetal growth restriction
- Raising awareness of fetal movement
- Effective fetal monitoring in labour
- Reduction in pre-term birth – 10% more likely in most deprived income group compared to the least deprived decile, delivery at the right time in the right place.

### Perinatal Mental Health – conception up to a year after the birth of a baby

- Mother and Infant Mental Health (MIMHS) Specialist Service – Moderate/ severe diagnosis – direct referral, MBU Dartford (8 inpatient beds)
- GP Spotlight Training
- IAPT Champion Training

### Acute Paediatrics

- Working with East Kent Hospitals Trust in order to clarify the pathway for children from A and E / Day assessment Centre on to the wards. Clinical audit to support reduced admissions and reduction in length of stay in hospital.
- GP Practice based paediatric clinics pilot – joint GP/paediatric clinics reducing referrals to secondary care, strengthening links between GPs and paediatrics.
- Early discussions concerning ‘Hospital at Home’ models of care – where children are supported in the community for acute short term conditions and some long term conditions rather than admission to hospital. Element of preventative /health promotion work here also – respiratory.

# What Next?

- ❖ Community MDT clinics based in GP hubs
- ❖ “Hospital at Home” model –reducing attendance at A&E and admissions
- ❖ Developing further local services for CYP EHWB and implementing the LTP plan
- ❖ Delivering the recommendations of Better Births via the LMS plan
