Upon being put to the vote, the motion was declared LOST.

Councillor Albon proposed and Councillor Wing seconded that the application be REFUSED for the following reasons:

The proposed development would provide insufficient and unsatisfactory parking provision upon the application site to serve the 6No. residential family dwellings proposed, resulting in additional parking pressure in an area where there is limited parking, resulting in harm to highway safety and highway amenity, contrary to Policy TP06 of the Thanet Local Plan and paragraph 111 of the National Planning Policy Framework.

The proposed development, by virtue of its size, scale and layout, would result in a cramped and congested form of development with limited open space, which will fail to enhance the character and appearance of the conservation area, to the detriment of the visual amenities of the area, contrary to Policies QD02 and HE02 of the Thanet Local Plan, and paragraphs 127 and 197 of the National Planning Policy Framework.

“Members REFUSE the application on the lack of sufficient affordable housing, as outlined at paragraph 2.6 in the report:

2.6 The proposed development, by virtue of the proposed level of affordable housing, would not meet the identified need for affordable housing in the district, thereby not providing the required homes to create a balanced and mixed community. This harm is considered to significantly and demonstrably outweigh the benefits of the development, therefore the proposal would not constitute sustainable development and is contrary to Strategic Priority 3 of the Thanet Local Plan and the objectives of the National Planning Policy Framework.”

Upon being put to the vote, the motion was declared CARRIED.
