The electric vehicle charging points shall be in the form of one active charging point per allocated parking space, and one active charging point per ten unallocated parking spaces. The electric vehicle charging points shall be provided prior to the first occupation of the development and thereafter maintained.

**GROUND:**

To protect air quality, in accordance with Policy SE05 of the Thanet Local Plan and the advice as contained within the NPPF

9 A Landscape and Ecological Management Plan (LEMP) shall be submitted to, and be approved in writing by, the local planning authority prior to the first occupation of the development. The content of the LEMP shall include the following:

- a) Description and evaluation of features to be managed;
- b) Ecological trends and constraints on site that might influence management;
- c) Aims and objectives of management;
- d) Appropriate management options for achieving aims and objectives;
- e) Prescriptions for management actions, together with a plan of management compartments;
- f) Preparation of a work schedule (including an annual work plan capable of being rolled forward over a five-year period);
- g) Details of the body or organisation responsible for implementation of the plan;
- h) Ongoing monitoring and remedial measures.

The LEMP shall also include details of the legal and funding mechanism(s) by which the long-term implementation of the plan will be secured by the developer with the management body(ies) responsible for its delivery. The plan shall also set out (where the results from monitoring show that conservation aims and objectives of the LEMP are not being met) how contingencies and/or remedial action will be identified, agreed and implemented so that the development still delivers the fully functioning biodiversity objectives of the originally approved scheme. The approved plan will be implemented in accordance with the approved details.

**GROUND:**

To ensure the long term management of habitats, species and other biodiversity features, in accordance with Policy SP30 of the Thanet Local Plan and advice as contained within the NPPF.

10 Details to be submitted in pursuant of condition 1 above for landscaping shall include an ecological enhancement plan demonstrating what ecological enhancements will be incorporated into the site. The enhancements must be incorporated into the site as approved prior to the first occupation of the development hereby permitted.

**GROUND:**

To enhance biodiversity, in accordance with Policy SP30 of the Thanet Local Plan and advice as contained within the NPPF.

11 If, during development, significant contamination is suspected or found to be present at the site, then works shall cease, and this contamination shall be fully assessed and an appropriate remediation scheme agreed with the

Local Planning Authority. The approved works shall be implemented within a timetable agreed by the Local Planning Authority and shall be of such a nature as to render harmless the identified contamination given the proposed end use of the site and surrounding environment, including controlled waters. Prior to first occupation/use and following completion of approved measures, a verification report shall be submitted to the Local Planning Authority for approval.

**GROUND:**

To ensure that the proposed development will not cause harm to human health or pollution of the environment, in accordance with Policy SE03 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

12 No drainage systems for the infiltration of surface water drainage into the ground are permitted other than with the express written consent of the Local Planning Authority, which may be given for those parts of the site where it has been demonstrated that there is no resultant unacceptable risk to controlled waters. The development shall be carried out in accordance with approved details.

**GROUND:**

To ensure that the proposed development will not cause harm to human health or pollution of the environment, in accordance with Policy SE03 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

13 Any facilities for the storage of oils, fuels or chemicals shall be provided with secondary containment that is impermeable to both the oil, fuel or chemical and water, for example a bund, details of which shall be submitted to the local planning authority for approval. The minimum volume of the secondary containment should be at least equivalent to the capacity of the tank plus 10%. If there is more than one tank in the secondary containment the capacity of the containment should be at least the capacity of the largest tank plus 10% or 25% of the total tank capacity, whichever is greatest. All fill points, vents, gauges and sight gauge must be located within the secondary containment.

The secondary containment shall have no opening used to drain the system. Associated above ground pipework should be protected from accidental damage. Below ground pipework should have no mechanical joints, except at inspection hatches and either leak detection equipment installed or regular leak checks. All fill points and tank vent pipe outlets should be detailed to discharge downwards into the bund.

**GROUND:**

To ensure that the proposed development will not cause harm to human health or pollution of the environment, in accordance with Policy SE03 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

14 The details to be submitted in pursuant of condition 1 above shall show no development (other than the vehicular access road) within the area identified on the parameter plan reference 365\_198\_002 Rev B as the archaeological exclusion zone, or the area north of this zone. Full details of any landscaping/planting proposed within this area shall be provided as part of the landscaping reserved matters application.

**GROUND:**

To ensure that due regard is had to the preservation in situ of important archaeological remains. in accordance with Policy HE01 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

15 No development shall take place until protective fencing has been erected around the archaeological exclusion zone (excluding the access point), in accordance with details to be submitted to, and approved in writing by, the Local Planning Authority. The protective fencing shall be installed prior to the commencement of works on site, including site clearance, and shall remain in situ throughout the construction period.

**GROUND:**

To ensure that due regard is had to the preservation in situ of important archaeological remains. in accordance with Policy HE01 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

16 Prior to the first occupation of the development hereby approved, a scheme detailing the arrangements for the interpretation of the archaeology within the development site shall be submitted to, and approved in writing by, the Local Planning Authority. Examples of how to relay and interpret the archaeology and history of the site can include, but are not limited to, the use of materials, landscaping, public art and the provision of historical interpretation boards. The details submitted pursuant to this condition shall include location, design, dimensions and materials of any fixed interpretation and a timetable for their implementation. The interpretation scheme shall be carried out in full accordance with the approved details and timetable and maintained in accordance with the approved details.

**GROUND:**

To ensure the development makes a positive contribution to local character and distinctiveness, through historical interpretation, in accordance with Policy HE01 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

17 No development shall take place until the applicant, or their agents or successors in title, has secured the implementation of a programme of archaeological work in accordance with a written specification and timetable which has been submitted to and approved by the Local Planning Authority.

**GROUND:**

To ensure that features of archaeological interest are properly examined and recorded in accordance with Policy HE01 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

18 Within 9 months of the completion of the on-site archaeological mitigation works referred to in condition 17 above, a Post Excavation Assessment Report shall be submitted to and approved in writing by the local planning authority. The Post-Excavation Assessment Report shall include an Updated Project Design and accompanying timetable for further analysis, publication and archive deposition of the findings of the archaeological investigations. The archaeological publication shall be produced in accordance with the programme and timetable set out in the report.

**GROUND:**

To ensure that features of archaeological interest are properly examined and recorded in accordance with Policy HE01 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

19 Prior to the commencement of the development hereby approved, a scheme to demonstrate that the internal noise levels within the residential units and the external noise levels in back gardens and other relevant amenity areas will conform to the standard identified by BS 8233 2014, Sound Insulation and Noise Reduction for Buildings - Code of Practice, shall be submitted to and approved in writing by the Local Planning Authority. The work specified in the approved scheme shall then be carried out in accordance with the approved details prior to occupation of the premises and be retained thereafter.

**GROUND:**

In the interests of amenity for future occupiers in accordance with Policy QD03 of the Thanet Local Plan and the advice contained within the NPPF

20 No development shall take place until details of the means of foul drainage have been submitted to and agreed in writing by the Local Planning Authority. The development shall be carried out in accordance with such details as are agreed and thereafter maintained.

**GROUND:**

To protect the district's groundwater, in accordance with Policy SE04 of the Thanet Local Plan, and the advice contained within the National Planning Policy Framework.

21 Details to be submitted in pursuant of Condition 1 above for layout shall demonstrate that the requirements for surface water drainage for all rainfall durations and intensities up to and including the climate change adjusted critical 100 year storm can be accommodated within the proposed development layout.

**GROUND:**

To ensure the development is served by satisfactory arrangements for the disposal of surface water and to ensure that the development does not exacerbate the risk of on/off site flooding, in accordance with Policy CC02 of the Thanet Local Plan and advice contained within the NPPF

22 Development shall not begin in any phase until a detailed sustainable surface water drainage scheme for the site has been submitted to (and approved in writing by) the local planning authority. The detailed drainage scheme shall demonstrate that the surface water generated by this development (for all rainfall durations and intensities up to and including the climate change adjusted critical 100 year storm) can be accommodated and disposed of without increase to flood risk on or off-site. The design shall promote the use of infiltration SuDS and shall only dispose of surface water off-site for those parts of the site where infiltration presents an unacceptable risk to controlled waters.

The drainage scheme shall also demonstrate (with reference to published guidance):

- . that silt and pollutants resulting from the site use can be adequately managed to ensure there is no pollution risk to receiving waters.
- . appropriate operational, maintenance and access requirements for each drainage feature or SuDS component are adequately considered, including any proposed arrangements for future adoption by any public body or statutory undertaker.

The drainage scheme shall be implemented in accordance with the approved details.

**GROUND:**

To ensure the development is served by satisfactory arrangements for the disposal of surface water and to ensure that the development does not exacerbate the risk of on/off site flooding, in accordance with Policy CC02 of the Thanet Local Plan and advice contained within the NPPF

23 No building on any phase (or within an agreed implementation schedule) of the development hereby permitted shall be occupied until a Verification Report, pertaining to the surface water drainage system and prepared by a suitably competent person, has been submitted to and approved by the Local Planning Authority. The Report shall demonstrate the suitable modelled operation of the drainage system where the system constructed is different to that approved. The Report shall contain information and evidence (including photographs) of details and locations of inlets, outlets and control structures; landscape plans; full as built drawings; information pertinent to the installation of those items identified on the critical drainage assets drawing; and, the submission of an operation and maintenance manual for the sustainable drainage scheme as constructed.

**GROUND:**

To ensure the development is served by satisfactory arrangements for the disposal of surface water and to ensure that the development does not exacerbate the risk of on/off site flooding, in accordance with Policy CC02 of the Thanet Local Plan and advice contained within the NPPF

24 If, during development, significant contamination is suspected or found to be present at the site, then works shall cease, and this contamination shall

be fully assessed and an appropriate remediation scheme agreed with the Local Planning Authority. The approved works shall be implemented within a timetable agreed by the Local Planning Authority and shall be of such a nature as to render harmless the identified contamination given the proposed end use of the site and surrounding environment, including controlled waters. Prior to first occupation/use and following completion of approved measures, a verification report shall be submitted to the Local Planning Authority for approval.

**GROUND:**

To ensure that the proposed development will not cause harm to human health or pollution of the environment, in accordance with Policy SE03 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

25 Piling or any other foundation designs using penetrative methods shall not be permitted other than with the express written consent of the Local Planning Authority, which may be given for those parts of the site where it has been demonstrated that there is no resultant unacceptable risk to groundwater. The development shall be carried out in accordance with the approved details.

**GROUND:**

To ensure that the proposed development will not cause harm to human health or pollution of the environment, in accordance with Policy SE03 of the Thanet Local Plan and the advice contained within the National Planning Policy Framework.

26 Prior to the commencement of any development on site details to include the following shall be submitted to and approved by the Local Planning Authority and should be carried out in accordance with the approved details.

- (a) Routing of construction and delivery vehicles to / from site
- (b) Parking and turning areas for construction and delivery vehicles and site personnel
- (c) Timing of deliveries
- (d) Provision of wheel washing facilities
- (e) Temporary traffic management / signage
- (f) Measures to control noise affecting nearby residents
- (g) Dust control measures
- (h) Access arrangements

**GROUND:**

In the interests of highway safety and neighbouring amenity, in accordance with Policy QD03 of the Thanet Local Plan and the advice contained within the NPPF.

27 The development hereby permitted shall incorporate measures to prevent the discharge of surface water onto the highway.

GROUND:

In the interests of highway safety, in accordance with the advice contained within the NPPF.

28 The development hereby approved shall incorporate a bound surface material for the first 5 metres of the access from the edge of the highway.

GROUND:

In the interests of highway safety, in accordance with the advice contained within the NPPF.

29 Prior to the first use of the cemetery hereby permitted, a monitoring and maintenance plan in respect of the cemetery, including a timetable for monitoring and the submission of reports to the Local Planning Authority, shall be submitted to, and approved in writing by, the Local Planning Authority. The reports as specified in the approved plan, including details of any necessary contingency action arising from the monitoring, shall be submitted to, and approved in writing by, the Local Planning Authority.

GROUND:

To ensure that the site does not pose any further risk to the water environment by managing anyon-going pollution issues, in line with paragraph 170 of the National Planning Policy Framework.

30 Prior to the first occupation of the development hereby permitted, the site access onto Tothill Street and associated improvements, along with the pedestrian uncontrolled crossing point, as shown on drawing numbered 8949-GA-001 Rev. P5, and the emergency access onto Greenhill Gardens, as shown on drawing numbered 8949-SK-002 Rev B (or amended as agreed in writing by the Local Planning Authority), shall be completed and made operational.

GROUND:

In the interests of highway safety.

31 Prior to the first occupation of the development here permitted, the improvements to the Tothill Street approach to the Minster Roundabout, as shown on drawing numbered 8949-GA-002 Rev. B (or amended as agreed in writing by the Local Planning Authority), shall be completed and made operational.

GROUND:

In the interests of highway safety.

32 Prior to the first occupation of the dwelling the following works between the dwelling and the adopted highway shall be complete

- (a) Footways and/or footpaths, with the exception of the wearing course;
- (b) Carriageways, with the exception of the wearing course but including a turning facility, highway drainage, visibility splays, street lighting, street nameplates and highway structures (if any).

**GROUND:**

In the interests of highway safety, and the living conditions of future occupants, in accordance with Policy QD03 of the Thanet Local Plan, and advice as contained within the NPPF.

33 Prior to the first occupation of the development hereby granted a Travel Plan and a programme for implementation shall be submitted to and approved in writing by the Local Planning Authority. The agreed programme shall thereafter be implemented in full.

**GROUND:**

To facilitate the use of alternative means of transport in accordance with Policy TP01, SP43 and the advice contained within the NPPF.

34 All hard and soft landscape works shall be carried out in accordance with the approved details. The works shall be carried out prior to the first occupation; of any part of the development, or in accordance with a programme of works to be agreed in writing with the Local Planning Authority. Any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased, shall be replaced in the next planting season with others of a similar size and species.

**GROUND:**

In the interests of the visual amenities of the area and to adequately integrate the development into the environment in accordance with Policies QD02 and GI04 of the Thanet Local Plan

35 A landscape management plan (including long term design objectives), management responsibilities and maintenance schedules for all landscape areas, other than small, privately owned, domestic gardens, shall be submitted to and approved in writing by the Local Planning Authority prior to the occupation of the development or any phase of the development, whichever is the sooner, for its approved use. The amenity areas shall be managed in accordance with the approved landscape management plan in perpetuity.

**GROUND:**

In the interests of the visual amenities of the area and to adequately integrate the development into the environment in accordance with Policies QD02 and GI04 of the Thanet Local Plan

36 The development hereby permitted shall be constructed to a high standard of energy efficiency to the equivalent of Level 4 of the Code for Sustainable Homes, unless otherwise agreed in writing by the Local Planning Authority.

**GROUND:**

All new buildings and conversions of existing buildings must be designed to reduce emissions of greenhouse gases and have resilience to function in a changing climate, in accordance with Policy QD01 of the Thanet Local Plan.

37 The development hereby permitted shall be constructed in order to meet the required technical standard for water efficiency of 110litres/person/day, thereby Part G2 Part 36 (2b) of Schedule 1 Regulation 36 to the Building Regulations 2010, as amended, applies.
