Understanding your business

In planning our audit we need to understand the challenges and opportunities the Council is facing. We set out a summary of our understanding below.

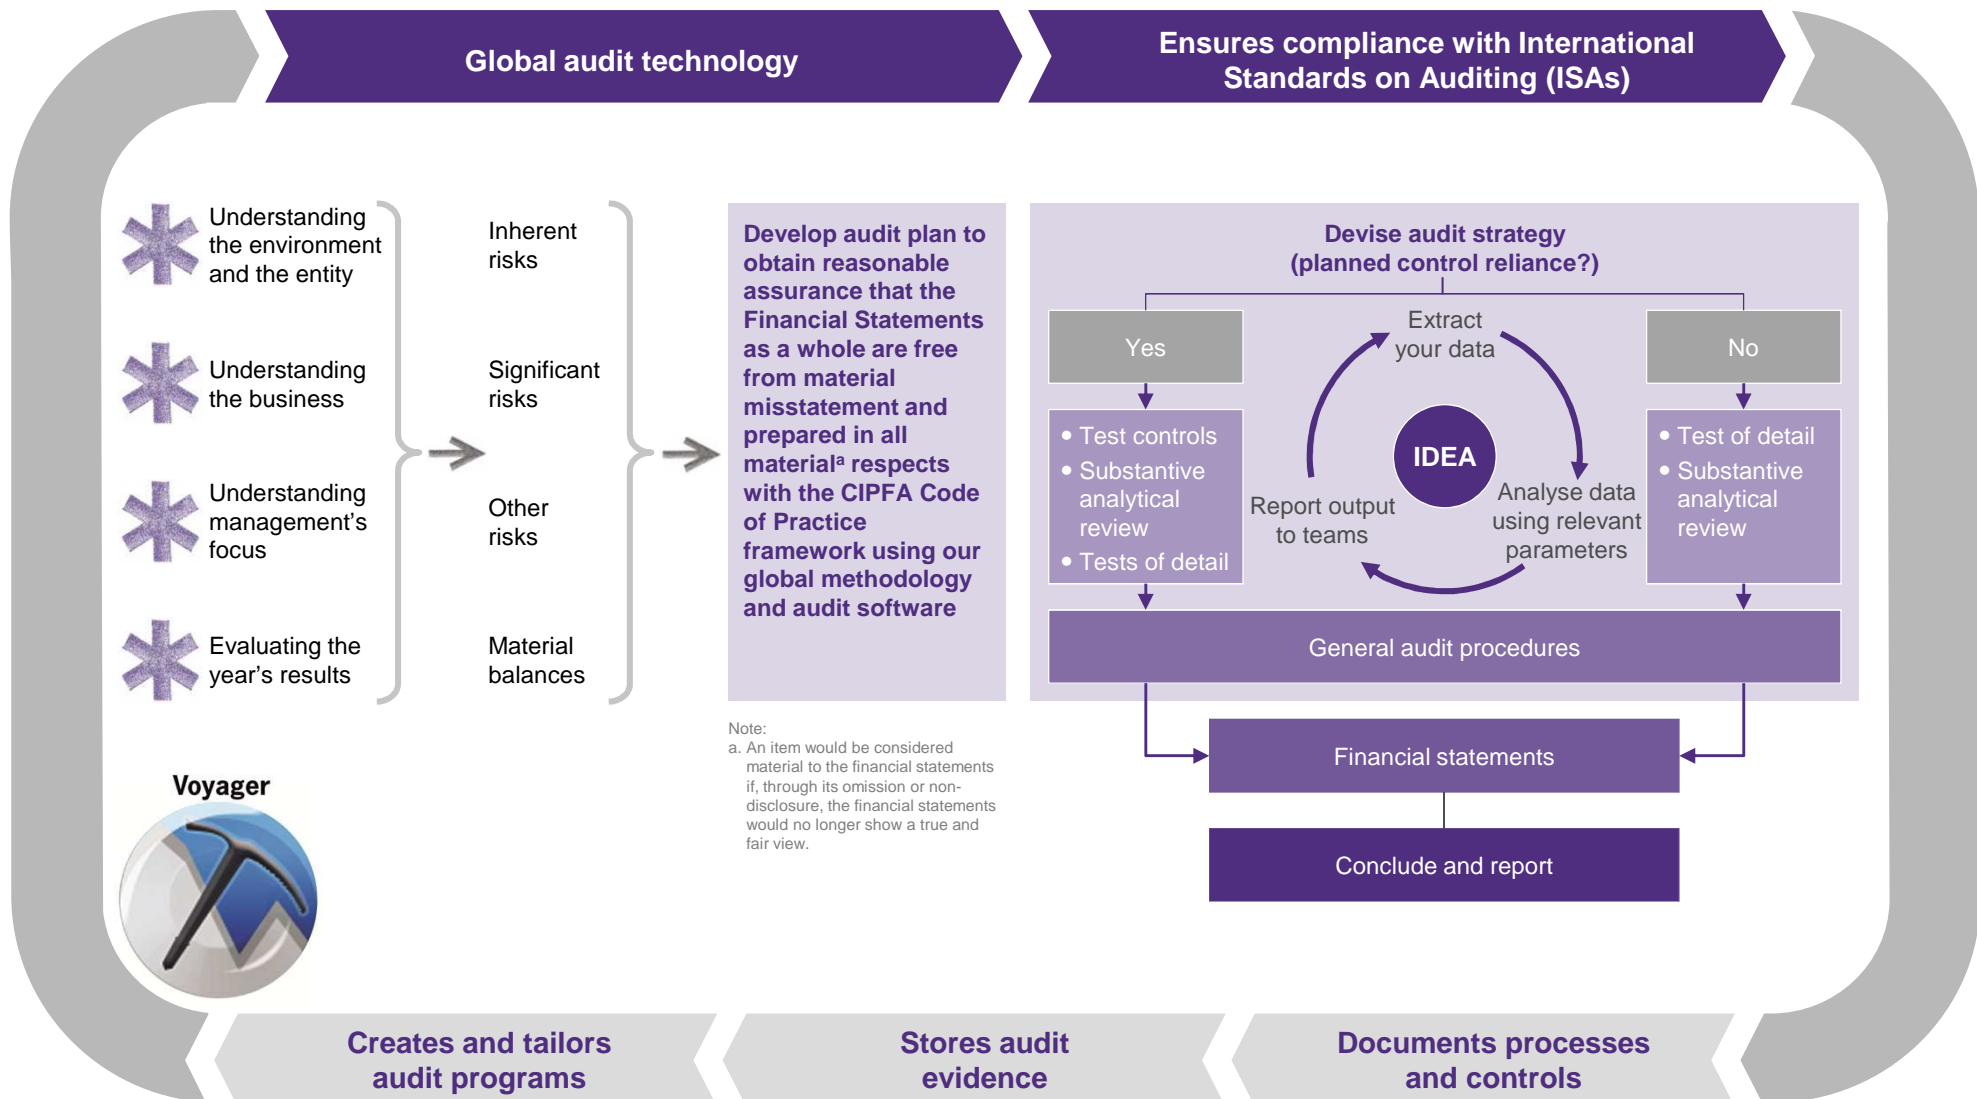

Developments relevant to your business and the audit

In planning our audit we also consider the impact of key developments in the sector and take account of national audit requirements as set out in the Code of Audit Practice and associated guidance.

Developments and other requirements					
<p>1. Financial reporting</p> <ul style="list-style-type: none"> • Changes to the CIPFA Code of Practice • Recognition of grant conditions and income • Self financing Housing Revenue Account 	<p>2. Our audit approach

An audit focused on risks

We undertake a risk based audit whereby we focus audit effort on those areas where we have identified a risk of material misstatement in the accounts. The table below shows how our audit approach focuses on the risks we have identified through our planning and review of the national risks affecting the sector. Definitions of the level of risk and associated work are given below:

Significant – Significant risks are typically non-routine transactions, areas of material judgement or those areas where there is a high underlying (inherent) risk of misstatement. We will undertake an assessment of controls (if applicable) around the risks and carry out detailed substantive testing.

Other – Other risks of material misstatement are typically those transaction cycles and balances where there are high values, large numbers of transactions and risks arising from, for example, system changes and issues identified from previous years audits. We will assess controls and undertake substantive testing, the level of which will be reduced where we can rely on controls.

None – Our risk assessment has not identified a risk of misstatement. We will undertake substantive testing of material balances. Where an item in the accounts is not material we do not carry out detailed substantive testing.

Significant risks identified

'Significant risks often relate to significant non-routine transactions and judgmental matters. Non-routine transactions are transactions that are unusual, either due to size or nature, and that therefore occur infrequently. Judgmental matters may include the development of accounting estimates for which there is significant measurement uncertainty' (ISA 315).

In this section we outline the significant risks of material misstatement which we have identified. There are two presumed significant risks which are applicable to all audits under auditing standards (International Standards on Auditing – ISAs) which are listed below:

Significant risk	Description	Substantive audit procedures
The revenue cycle includes fraudulent transactions	Under ISA 240 there is a presumed risk that revenue may be misstated due to the improper recognition of revenue.	Further work planned: <ul style="list-style-type: none">• Review and testing of revenue recognition policies• Performance of attribute testing on material revenue streams
Management over-ride of controls	Under ISA 240 there is a presumed risk that the risk of management over-ride of controls is present in all entities.	Further work planned: <ul style="list-style-type: none">• Review of accounting estimates, judgments and decisions made by management• Testing of journal entries• Review of unusual significant transactions

Other risks

The auditor should evaluate the design and determine the implementation of the entity's controls, including relevant control activities, over those risks for which, in the auditor's judgment, it is not possible or practicable to reduce the risks of material misstatement at the assertion level to an acceptably low level with audit evidence obtained only from substantive procedures (ISA 315).

Other reasonably possible risks	Description	Work completed to date	Further work planned
Operating expenses	Operating expenses and creditors understated or not recorded in the correct period	<ul style="list-style-type: none"> Identify and walk through activity level controls 	<ul style="list-style-type: none"> Perform attribute testing on material expense streams Assess the method of allocating/apportioning expenses to functional categories for compliance with the Service Reporting Code of Practice Cut-off testing
Employee remuneration	Remuneration expenses not correct	<ul style="list-style-type: none"> Identify and walk through activity level controls 	<ul style="list-style-type: none"> Predictive analytical review of employee remuneration Performance of attribute testing on payroll expenses
Welfare Expenditure	Welfare benefits improperly computed	<ul style="list-style-type: none"> Identify and walk through activity level controls 	<ul style="list-style-type: none"> Substantive testing of a sample of benefit claims Reconcile benefit expenditure to the benefit subsidy claim and assess the impact of any significant differences Complete benefit software diagnostic tool, uprating checks and analytical review compared to prior year subsidy claim
Housing Rent Revenue Account	Revenue transactions not recorded.	<ul style="list-style-type: none"> Identify and walk through activity level controls 	<ul style="list-style-type: none"> Predictive analytical review of housing revenue Perform attribute testing on the rental income stream Review for large or unusual transactions Cut-off testing
Property, Plant & Equipment	PPE activity not valid	<ul style="list-style-type: none"> Identify and walk through activity level controls 	<ul style="list-style-type: none"> Substantive testing of a sample of additions and disposals Substantive testing of a sample of items for existence and ownership Identify and walk through activity level controls

Group audit scope and risk assessment

ISA 600 requires that as Group auditors we obtain sufficient appropriate audit evidence regarding the financial information of the components and the consolidation process to express an opinion on whether the group financial statements are prepared, in all material respects, in accordance with the applicable financial reporting framework.

The council, along with Canterbury City Council, Dover District Council and Shepway District Council, jointly owns East Kent Housing Ltd, an Arms Length Management Organisation (ALMO) which has managed the council's housing stock since 1 April 2011. Each council holds an equal 25% share. For 2011/12 East Kent Housing was classified as a joint venture and group accounts were not prepared, on the basis that the impact was not material to the council's financial statements.

Component	Level of response required under ISA 600	Risks identified	Planned audit approach
East Kent Housing Limited	To be confirmed	The council has a 25% interest in the East Kent Housing Ltd. The accounting treatment of this interest is determined to a great extent by the materiality of the Council's share. Dependent on the materiality it may be appropriate to either produce consolidated Group financial statements or disclose the interest in the notes to the accounts.	We will: <ul style="list-style-type: none">• Review management's assessment of the materiality of the interest in East Kent Housing Ltd• Consider whether the accounting treatment adopted is appropriate

Results of interim audit work

Scope

As part of the interim audit work and in advance of our final accounts audit fieldwork, we will consider:

- the effectiveness of the internal audit function
- internal audit's work on the Council's key financial systems
- walkthrough testing to confirm whether controls are implemented as per our understanding in areas where we have identified a risk of material misstatement
- a review of Information Technology (IT) controls

	Work performed	Conclusion/ Summary
Internal audit	We have reviewed internal audit's overall arrangements against the CIPFA Code of Practice. Where the arrangements are deemed to be adequate, we can gain assurance from the overall work undertaken by internal audit and can conclude that the service itself is contributing positively to the internal control environment and overall governance arrangements within the Council	Overall, we have concluded that the Internal Audit service continues to provide an independent and satisfactory service to the Council and that we can take assurance from their work in contributing to an effective internal control environment at the Council.
Walkthrough testing	Walkthrough tests were completed in relation to the specific accounts assertion risks which we consider to present a risk of material misstatement to the financial statements.	No significant issues were noted and in-year internal controls were observed to have been implemented in accordance with our documented understanding.
Review of information technology (IT) controls	Our information systems specialist will perform a high level review of the general IT control environment, as part of the overall review of the internal controls system.	Scheduled for April 2013
Journal entry controls	We have reviewed the Council's journal entry policies and procedures as part of determining our journal entry testing strategy and have not identified any material weaknesses which are likely to adversely impact on the Council's control environment or financial statements.	Journal entry procedures were found to be appropriately Controlled. We will follow up with journal testing of large and unusual transactions after the year end

Value for Money

Introduction

The Code of Audit Practice requires us to issue a conclusion on whether the Council has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources. This is known as the Value for Money (VfM) conclusion.

2012/13 VfM conclusion

Our Value for Money conclusion will be based on two reporting criteria specified by the Audit Commission.

We will tailor our VfM work to ensure that as well as addressing high risk areas it is, wherever possible, focused on the Council's priority areas and can be used as a source of assurance members. Where we plan to undertake specific reviews to support our VfM conclusion, we will issue a Terms of Reference for each review outlining the scope, methodology and timing of the review. These will be agreed in advance and presented to Audit Committee.

The results of all our local VfM audit work and key messages will be reported in our Audit Findings report and in the Annual Audit Letter. We will agree any additional reporting to the Council on a review-by-review basis.

Code criteria

The Council has proper arrangements in place for:

- securing financial resilience
- challenging how it secures economy, efficiency and effectiveness in its use of resources

We will consider whether the Council is prioritising its resources with tighter budget

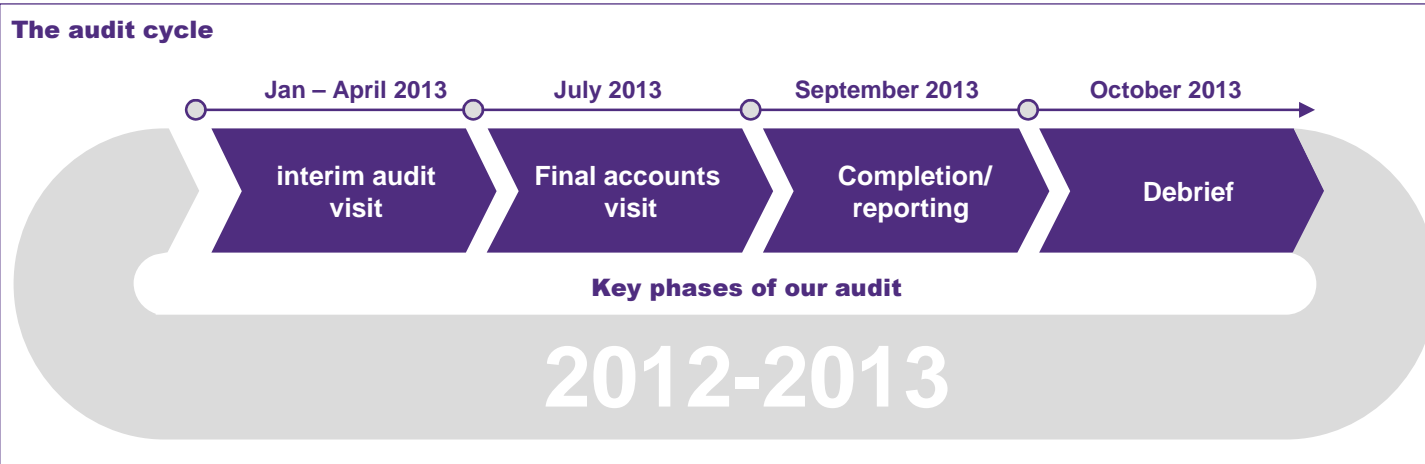

Work to be undertaken

Risk-based work focusing on arrangements relating to financial governance, strategic financial planning and financial control.

Specifically we will review:

- the Council's medium term financial plan including the assumptions made;
- 2012/13 financial performance;
- progress in development and delivery of savings plans.
- monitor progress on large scale developments
- monitor any emerging issues as a result of members conduct

Independence and ethics

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Auditing Practices Board's Ethical Standards and therefore we confirm that we are independent and are able to express an objective opinion on the financial statements.

Full details of all fees charged for audit and non-audit services will be included in our Audit Findings report at the conclusion of the audit.

We confirm that we have implemented policies and procedures to meet the requirement of the Auditing Practices Board's Ethical Standards.

Communication of audit matters with those charged with governance

International Standards on Auditing (ISA) 260, as well as other ISAs, prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table opposite.

This document, The Audit Plan, outlines our audit strategy and plan to deliver the audit, while The Audit Findings will be issued prior to approval of the financial statements and will present key issues and other matters arising from the audit, together with an explanation as to how these have been resolved.

We will communicate any adverse or unexpected findings affecting the audit on a timely basis, either informally or via a report to the Council.

Respective responsibilities

This plan has been prepared in the context of the Statement of Responsibilities of Auditors and Audited Bodies issued by the Audit Commission (www.audit-commission.gov.uk).

We have been appointed as the Council's independent external auditors by the Audit Commission, the body responsible for appointing external auditors to local public bodies in England. As external auditors, we have a broad remit covering finance and governance matters.

Our annual work programme is set in accordance with the Code of Audit Practice ('the Code') issued by the Audit Commission and includes nationally prescribed and locally determined work. Our work considers the Council's key risks when reaching our conclusions under the Code.

It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.
