

## **Annex 1: CIPFA Code of Practice on Treasury Management (2011 Edition)**

### **Clause Adoption (for approval by G&A Committee, Cabinet & Council)**

*CIPFA recommends that all public service organisations adopt, as part of their standing orders, financial regulations, or other formal policy documents appropriate to their circumstances, the following four clauses.*

1. This organisation will maintain, as the cornerstones for effective treasury management:
  - a treasury management policy statement, stating the policies, objectives and approach to risk management of its treasury management activities.
  - suitable treasury management practices (TMPs), setting out the manner in which the organisation will seek to achieve those policies and objectives, and prescribing how it will manage and control those activities.

The content of the policy statement and TMPs will follow the recommendations contained in Sections 6 and 7 of the CIPFA Code of Practice on Treasury Management, subject only to amendment where necessary to reflect the particular circumstances of this organisation. Such amendments will not result in the organisation materially deviating from the Code's key principles.

2. This organisation (ie full council) will receive reports on its treasury management policies, practices and activities, including, as a minimum, an annual strategy and plan in advance of the year, a mid-year review and an annual report after its close, in the form prescribed in its TMPs.
3. This organisation delegates responsibility for the implementation and regular monitoring of its treasury management policies and practices to the Governance & Audit Committee, and for the execution and administration of treasury management decisions to the s151 officer (the responsible officer), who will act in accordance with the organisation's policy statement and TMPs and, if he/she is a CIPFA member, CIPFA's Standard of Professional Practice on Treasury Management.
4. This organisation nominates the Governance & Audit Committee to be responsible for ensuring effective scrutiny of the treasury management strategy and policies.

### **Policy Statement (for approval by G&A Committee)**

*CIPFA recommends that an organisation's treasury management policy statement adopts the following forms of words to define the policies and objectives of its treasury management activities:*

1. This organisation defines its treasury management activities as:  
The management of the organisation's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.
2. This organisation regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury

management activities will focus on their risk implications for the organisation, and any financial instruments entered into to manage these risks.

3. This organisation acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving value for money in treasury management, and to employing suitable comprehensive performance measurement techniques, within the context of effective risk management.
4. This organisation sets parameters/policies for its borrowing and investments as described in its annual Treasury Management Strategy Statement.

### **Treasury Management Practices (for approval by G&A Committee)**

*CIPFA recommends that an organisation's treasury management practices (TMPs) include those of the following that are relevant to its treasury management powers and the scope of its treasury management activities:*

*TMP1 Risk management*

*TMP2 Performance measurement*

*TMP3 Decision-making and analysis*

*TMP4 Approved instruments, methods and techniques*

*TMP5 Organisation, clarity and segregation of responsibilities, and dealing arrangements*

*TMP6 Reporting requirements and management information arrangements*

*TMP7 Budgeting, accounting and audit arrangements*

*TMP8 Cash and cash flow management*

*TMP9 Money laundering*

*TMP10 Training and qualifications*

*TMP11 Use of external service providers*

*TMP12 Corporate governance*

#### **TMP1 Risk management**

##### **General statement**

The responsible officer will design, implement and monitor all arrangements for the identification, management and control of treasury management risk, will report at least annually on the adequacy/suitability thereof, and will report, as a matter of urgency, the circumstances of any actual or likely difficulty in achieving the organisation's objectives in this respect, all in accordance with the procedures set out in TMP6 *Reporting requirements and management information arrangements*.

##### **[1] credit and counterparty risk management**

This organisation regards a key objective of its treasury management activities to be the security of the principal sums it invests. Accordingly, it will ensure that its counterparty lists and limits reflect a prudent attitude towards organisations with whom funds may be deposited, and will limit its investment activities to the instruments, methods and techniques referred to in TMP4 *Approved instruments, methods and techniques*. It also recognises the need to have, and will therefore maintain, a formal counterparty policy in respect of those organisations from which it may borrow, or with whom it may enter into other financing or derivative arrangements.

## **[2] liquidity risk management**

This organisation will ensure it has adequate though not excessive cash resources, borrowing arrangements, overdraft or standby facilities to enable it at all times to have the level of funds available to it which are necessary for the achievement of its business/service objectives.

This organisation will only borrow in advance of need where there is a clear business case for doing so and will only do so for the current capital programme or to finance future debt maturities.

## **[3] interest rate risk management**

This organisation will manage its exposure to fluctuations in interest rates with a view to containing its interest costs, or securing its interest revenues, in accordance with the amounts provided in its budgetary arrangements as amended in accordance with TMP6 Reporting requirements and management information arrangements.

It will achieve this by the prudent use of its approved instruments, methods and techniques, primarily to create stability and certainty of costs and revenues, but at the same time retaining a sufficient degree of flexibility to take advantage of unexpected, potentially advantageous changes in the level or structure of interest rates. This should be the subject to the consideration and, if required, approval of any policy or budgetary implications.

It will ensure that any hedging tools such as derivatives are only used for the management of risk and the prudent management of financial affairs and that the policy for the use of derivatives is clearly detailed in the annual strategy.

## **[4] exchange rate risk management**

It will manage its exposure to fluctuations in exchange rates so as to minimise any detrimental impact on its budgeted income/expenditure levels.

## **[5] refinancing risk management**

This organisation will ensure that its borrowing, private financing and partnership arrangements are negotiated, structured and documented, and the maturity profile of the monies so raised are managed, with a view to obtaining offer terms for renewal or refinancing, if required, which are competitive and as favourable to the organisation as can reasonably be achieved in the light of market conditions prevailing at the time.

It will actively manage its relationships with its counterparties in these transactions in such a manner as to secure this objective, and will avoid overreliance on any one source of funding if this might jeopardise achievement of the above.

## **[6] legal and regulatory risk management**

This organisation will ensure that all of its treasury management activities comply with its statutory powers and regulatory requirements. It will demonstrate such compliance, if required to do so, to all parties with whom it deals in such activities. In framing its credit and counterparty policy under TMP1[1] *credit and counterparty risk management*, it will ensure that there is evidence of counterparties' powers, authority and compliance in respect of the transactions they may effect with the organisation, particularly with regard to duty of care and fees charged.

This organisation recognises that future legislative or regulatory changes may impact on its

treasury management activities and, so far as it is reasonably able to do so, will seek to minimise the risk of these impacting adversely on the organisation.

#### **[7] fraud, error and corruption, and contingency management**

This organisation will ensure that it has identified the circumstances which may expose it to the risk of loss through fraud, error, corruption or other eventualities in its treasury management dealings. Accordingly, it will employ suitable systems and procedures, and will maintain effective contingency management arrangements, to these ends.

#### **[8] market risk management**

This organisation will seek to ensure that its stated treasury management policies and objectives will not be compromised by adverse market fluctuations in the value of the principal sums it invests, and will accordingly seek to protect itself from the effects of such fluctuations.

#### **TMP2 Performance measurement**

This organisation is committed to the pursuit of value for money in its treasury management activities, and to the use of performance methodology in support of that aim, within the framework set out in its treasury management policy statement.

Accordingly, the treasury management function will be the subject of ongoing analysis of the value it adds in support of the organisation's stated business or service objectives. It will be the subject of regular examination of alternative methods of service delivery, of the availability of fiscal or other grant or subsidy incentives, and of the scope for other potential improvements.

#### **TMP3 Decision-making and analysis**

This organisation will maintain full records of its treasury management decisions, and of the processes and practices applied in reaching those decisions, both for the purposes of learning from the past, and for demonstrating that reasonable steps were taken to ensure that all issues relevant to those decisions were taken into account at the time.

#### **TMP4 Approved instruments, methods and techniques**

This organisation will undertake its treasury management activities by employing only approved instruments, methods and techniques, and within the limits and parameters defined in TMP1 *Risk management*.

Where this organisation intends to use derivative instruments for the management of risks, these will be limited to those set out in its annual treasury strategy. The organisation will seek proper advice and will consider that advice when entering into arrangements to use such products to ensure that it fully understands those products.

#### **TMP5 Organisation , clarity and segregation of responsibilities, and dealing arrangements**

This organisation considers it essential, for the purposes of the effective control and monitoring of its treasury management activities, for the reduction of the risk of fraud or error, and for the pursuit of optimum performance, that these activities are structured and managed in a fully integrated manner, and that there is at all times a clarity of treasury management responsibilities.

The principle on which this will be based is a clear distinction between those charged with setting treasury management policies and those charged with implementing and controlling these policies, particularly with regard to the execution and transmission of funds, the recording and administering of treasury management decisions, and the audit and review of the treasury management function.

If and when this organisation intends, as a result of lack of resources or other circumstances, to depart from these principles, the responsible officer will ensure that the reasons are properly reported in accordance with TMP6 Reporting requirements and management information arrangements, and the implications properly considered and evaluated.

The responsible officer will ensure that there are clear written statements of the responsibilities for each post engaged in treasury management, and the arrangements for absence cover. The responsible officer will also ensure that at all times those engaged in treasury management will follow the policies and procedures set out.

The responsible officer will ensure there is proper documentation for all deals and transactions, and that procedures exist for the effective transmission of funds.

The responsible officer will fulfil all such responsibilities in accordance with the organisation's policy statement and TMPs and, if a CIPFA member, the *Standard of Professional Practice on Treasury Management*.

### **TMP6 Reporting requirements and management information arrangements**

This organisation will ensure that regular reports are prepared and considered on the implementation of its treasury management policies; on the effects of decisions taken and transactions executed in pursuit of those policies; on the implications of changes, particularly budgetary, resulting from regulatory, economic, market or other factors affecting its treasury management activities; and on the performance of the treasury management function.

As a minimum:

The organisation (ie full council) will receive:

- an annual report on the strategy and plan to be pursued in the coming year
- a mid-year review
- an annual report on the performance of the treasury management function, on the effects of the decisions taken and the transactions executed in the past year, and on any circumstances of non-compliance with the organisation's treasury management policy statement and TMPs.

The committee/board/council will receive regular monitoring reports on treasury management activities and risks.

The body responsible for scrutiny, which is the Governance & Audit Committee, will have responsibility for the scrutiny of treasury management policies and practices.

Local authorities should report the treasury management indicators as detailed in their sector-specific guidance notes.

## **TMP7 Budgeting, accounting and audit arrangements**

The responsible officer will prepare, and this organisation will approve and, if necessary, from time to time will amend, an annual budget for treasury management, which will bring together all of the costs involved in running the treasury management function, together with associated income. The matters to be included in the budget will at minimum be those required by statute or regulation, together with such information as will demonstrate compliance with TMP1 *Risk management*, TMP2 *Performance measurement*, and TMP4 *Approved instruments, methods and techniques*. The responsible officer will exercise effective controls over this budget, and will report upon and recommend any changes required in accordance with TMP6 *Reporting requirements and management information arrangements*.

This organisation will account for its treasury management activities, for decisions made and transactions executed, in accordance with appropriate accounting practices and standards, and with statutory and regulatory requirements in force for the time being.

## **TMP8 Cash and cash flow management**

Unless statutory or regulatory requirements demand otherwise, all monies in the hands of this organisation will be under the control of the responsible officer, and will be aggregated for cash flow and investment management purposes. Cash flow projections will be prepared on a regular and timely basis, and the responsible officer will ensure that these are adequate for the purposes of monitoring compliance with TMP1[1] *liquidity risk management*.

## **TMP9 Money laundering**

This organisation is alert to the possibility that it may become the subject of an attempt to involve it in a transaction involving the laundering of money. Accordingly, it will maintain procedures for verifying and recording the identity of counterparties and reporting suspicions, and will ensure that staff involved in this are properly trained.

## **TMP10 Training and qualifications**

This organisation recognises the importance of ensuring that all staff involved in the treasury management function are fully equipped to undertake the duties and responsibilities allocated to them. It will therefore seek to appoint individuals who are both capable and experienced and will provide training for staff to enable them to acquire and maintain an appropriate level of expertise, knowledge and skills. The responsible officer will recommend and implement the necessary arrangements.

The responsible officer will ensure that board/council members tasked with treasury management responsibilities, including those responsible for scrutiny, have access to training relevant to their needs and those responsibilities.

Those charged with governance recognise their individual responsibility to ensure that they have the necessary skills to complete their role effectively.

## **TMP11 Use of external service providers**

This organisation recognises that responsibility for treasury management decisions remains with the organisation at all times. It recognises that there may be potential value in employing external providers of treasury management services, in order to acquire access to specialist skills and resources. When it employs such service providers, it will ensure it does so for reasons which have been submitted to a full evaluation of the costs and benefits. It will

also ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subjected to regular review. And it will ensure, where feasible and necessary, that a spread of service providers is used, to avoid overreliance on one or a small number of companies. Where services are subject to formal tender or re-tender arrangements, legislative requirements will always be observed. The monitoring of such arrangements rests with the responsible officer.

### **TMP12 Corporate governance**

This organisation is committed to the pursuit of proper corporate governance throughout its businesses and services, and to establishing the principles and practices by which this can be achieved. Accordingly, the treasury management function and its activities will be undertaken with openness and transparency, honesty, integrity and accountability.

This organisation has adopted and has implemented the key principles of the CIPFA Code of Practice on Treasury Management. This, together with the organisation's other treasury arrangements, are considered vital to the achievement of proper corporate governance in treasury management, and the responsible officer will monitor and, if and when necessary, report upon the effectiveness of these arrangements.
