

Annex 3

Thanet District Council – Flexible Use of Capital Receipts Strategy

To support local authorities deliver more efficient and sustainable services, under the Local Government Act 2003 section 15(1) the government allows local authorities to spend up to 100% of their capital receipts on the revenue costs of reform projects (revenue reform costs) and subsequently issued revised guidance in March 2016.

Accordingly the Council can treat as capital expenditure, any expenditure that is designed to generate ongoing revenue savings in the delivery of public services and/or transform service delivery to reduce costs and/or transform service delivery in a way that reduces costs or demand for services for any of the public sector delivery partners.

Revenue Reform Costs must be properly incurred by 31 March 2019 and can only be met from capital receipts which have been received from 1 April 2016 to 31 March 2019. Revenue Reform Costs cannot be financed from (i) Right to Buy receipts, (ii) pre 1 April 2016 capital receipts, and/or (iii) borrowing.

Revenue Reform Costs that generate ongoing savings may be funded from the Council's capital receipts for the following:

- Sharing back-office and administrative services with one or more other council or public sector bodies;
- Investment in service reform feasibility work, e.g. setting up pilot schemes;
- Collaboration between local authorities and central government departments to free up land for economic use;
- Funding the cost of service reconfiguration, restructuring or rationalisation (staff or non-staff), where this leads to ongoing efficiency savings or service transformation;
- Sharing Chief-executives, management teams or staffing structures;
- Driving a digital approach to the delivery of more efficient public services and how the public interacts with constituent authorities where possible;
- Aggregating procurement on common goods and services where possible, either as part of local arrangements or using Crown Commercial Services or regional procurement hubs or Professional Buying Organisations;
- Improving systems and processes to tackle fraud and corruption in line with the Local Government Fraud and Corruption Strategy;
- Setting up commercial or alternative delivery models to deliver services more efficiently and bring in revenue; and
- Integrating public facing services across two or more public sector bodies to generate savings or to transform service delivery.

On a project by project basis details of the expected savings/service transformation will be provided.

The impact on the Council's Prudential Indicators from Revenue Reform Costs being treated as capital expenditure is:

- Estimated and actual capital expenditure will increase by the amount of the Revenue Reform Costs;

Annex 3

- Balance Sheet resources (capital receipts) will decrease by the amount of the Revenue Reform Costs;
- The 'incremental impact on capital investment decisions on the band D council tax' and the ratio of 'financing costs to net revenue stream' may increase or decrease depending on whether the reduction in treasury interest income from the utilisation of capital receipts is greater or less than any relevant revenue savings/enhancements achieved from successful implementation of the reform project(s).

Effect

Utilisation of capital receipts to fund expenditure that would usually be funded from revenue resources diverts the receipts available for re-investment in existing assets or the creation of new ones.

To date the Council has not utilised capital receipts to fund revenue reform costs.
