Licensing,

Please see acceptance below from the agent for the above application.

Environmental Health have agreed the following condition is added to any grant of licence for this premises. The condition being:

1. Alcohol that is purchase at the premises shall not leave the internal parts of the premises. This shall result in patrons leaving temporarily to smoke having drinks removed from them.

If this condition is added Environmental Health would withdraw any objection they may have to the application,.

Regards,

Mr Dillon, Mr Osman,

I note that Mr Osman's details are on the application but Mr Dillion sent in the letter of application. I have therefore written to both of you. If you wish me to only correspond with one party please confirm this.

I have been asked to comment on the premises licence application. I also commented on the planned permission for the site.

I note the hours applied for are within the planning permission. I note there is no music included within the application but the live music act will allow music until 23:00 pm if required.

On reviewed the application the only condition I request to be placed on the application is the following:

1) Alcohol that is purchase at the premises shall not leave the internal parts of the premises. This shall result in patrons leaving temporarily to smoke having drinks removed from them.

Other than this we would have no objections to the application.

If you are happy with the condition please confirm this by return of e-mail and I put this forward as my representation to Licensing.

Regards,
