Hi Jane

I have spoken with the applicant Ross and agreed the condition below. I therefore withdraw my objection.

The cumulative effects of litter in the vicinity of premises carrying on licensable activity could cause a public nuisance. In this instance it is appropriate and necessary for a condition of a licence to require premises serving customers to provide a daily litter collection in the vicinity of the premises in order to prevent the accumulation of litter from its customers.

Condition:

A member of staff shall carry out a daily litter pick of Botany Bay beach collecting any discarded cups used for the sale of alcohol. A record detailing the name of the member of staff, time and date of each collection along with trade waste collection records shall be kept and available on request.

Regards

Amanda Berry
