

LOCAL PLAN REVIEW CABINET ADVISORY GROUP TERMS OF REFERENCE 2020/21

Introduction and Background

It is anticipated that the Local Plan will be adopted in Spring 2020.

As a result of the Secretary of State's intervention in the Local Plan process, the Council was directed to complete a review of the Local Plan within six months of adoption.

The term "review" has previously been used to describe the whole Local Plan process from early stages through to adoption. Government guidance now identifies two stages - **review** (when work is undertaken to determine the need for, and scope of, any update to a Plan); and **update** (the process of further evidence-gathering; policy formulation and assessment; engagement and consultation; and the formal Publication and Examination processes, through to adoption).

The review process is a Council-led process, but also involving key external stakeholders as appropriate, of reviewing policies and key issues to assess whether the Local Plan needs to be updated, and to determine the scope of any update.

Some issues have already been identified through the current Local Plan process as requiring review:

- To consider the implications of climate change;
 - To review the provisions of the Plan in relation to Manston Airport in the light of a decision on the Development Consent Order;
 - To assess the implications of the Local Housing Need Methodology on housing requirements for the district;
 - To consider the provision of Gypsy & Traveller sites to meet identified requirements; and
 - To ensure compatibility with the most recent National Planning Policy Framework.

Other issues may emerge during the review process.

Purpose of the Local Plan Cabinet Advisory Group

- To consider the need for an update of the Thanet Local Plan;
- To consider the possible scope of an update to the Plan; and
- To advise Cabinet of the views expressed by the Group.
