Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Key matters

Factors

Our response

Impact of COVID-19 pandemic

The Council has experienced additional expenditure and income as a result of the Covid 19 pandemic. In the budget setting in September it was identified that there was a cost pressure of £5.7 million created by the pandemic, of which there was a funding shortfall of £2.7 million. In January 2021 it was noted that there was additional one off funding of £1.1 million being provided, which has then resulted in a budget gap of £1.7 million being met from reserves.

Additional spend pressures have also been incurred in homelessness support, staffing, provision for Personal Protective Equipment (PPE), cleaning and homeworking. The Council has received a number of covid-19 related grants from Central Government to mitigate some of the additional pressures experienced, in responding to the pandemic locally, lost revenue from fees and charges and to support businesses within the district.

Accounting and auditing developments

On 1 April 2020, the National Audit Office introduced a new Code of Audit Practice which comes into effect from audit year 2020/21. The Code introduced a revised approach to the audit of Value for Money. (VFM) There are three main changes arising from the NAO's new approach:

- A new set of key criteria, covering financial sustainability, governance and improvements in economy, efficiency and effectiveness
- More extensive reporting, with a requirement on the auditor to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach
- The replacement of the binary (qualified / unqualified) approach to VFM conclusions, with more sophisticated judgements on performance, as well as key recommendations on any significant weaknesses in arrangements identified during the audit.

In the period December 2018 to January 2020 the Financial Reporting Council issued a number of updated International Auditing Standards (ISAs (UK)) which are effective for audits of financial statements for periods beginning on or after 15 December 2019. ISA (UK) 540 (revised): Auditing Accounting Estimates and Related Disclosures includes significant enhancements in respect of the audit risk assessment process for accounting estimates. As part of this process auditors also need to obtain an understanding of the effectiveness of the role of those charged with governance relating to accounting estimates adopted by management, which is particularly important where the estimates have high estimation uncertainty or require significant judgement.

Although the implementation of IFRS 16 has been delayed, audited bodies still need to include disclosures in their 2020/21 statements to comply with the requirements of IAS 8. As a minimum, we would expect the Council to disclose the title of the standard, the date of initial application and the nature of the changes in accounting policy for leases. If the impact of IFRS 16 is not known or reasonably estimable, the accounts should state this.

In the prior year the Council's valuer reported a material uncertainty regarding the valuations of properties due to the COVID-19 pandemic. In addition, there was a material uncertainty in relation to the valuation of the pooled property funds which impacted both the Council's and Pension Funds position. We will monitor the position for the 31 March 2021 valuations.

At this time we have not identified a specific COVID-19 significant audit risk (as we did for Local Government audits in 2019/20 which covered a number of risks including the availability of Council staff to produce accounts, and valuation uncertainties in relation to land and buildings). We will revisit this assessment should the current pressures the sector faces continues and impacts year end accounting and auditing processes.

We will continue to provide you with sector updates via our Governance & Audit Committee updates.

We will liaise with the Council's valuer to clarify any potential material uncertainties in 2020/21.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Thanet District Council ('the Council') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Thanet District Council. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the:

- Council's financial statements that have been prepared by management with the oversight of those charged with governance (the Governance and Audit Committee); and
- Value for Money arrangements in place at the Council for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or the Governance & Audit Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- The valuation of land and buildings including council dwellings and investment properties
- The valuation of the net pension fund liability
- Management override of control

We have rebutted the risk in relation to revenue cycle includes fraudulent transactions.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £2.6 million (PY £2.4 million) for the Council, which equates to 2% of your prior year gross expenditure for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £0.13 million (PY £0.12 million).

Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money have identified the following risks of significant weakness:

- Arrangements for setting a sustainable Medium Term Financial Plan
- Governance arrangements in relation to grievances and concerns

We note our Value for Money conclusions for both 2018/19 and 2019/20 remain outstanding. This is due to objections received in both years. The final outstanding objection relating to 2018/19 is nearing completion.

Audit logistics

Our planning and risk assessment took place in March and our final visit will take place in August and September. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report. Our audit approach is detailed in Appendix A.

Our fee for the audit is to be confirmed (PY: £81,548) and is subject to the Council delivering a good set of financial statements and working papers.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements..

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraud transactions (rebutted)	<p>Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue.</p> <p>This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.</p>	<p>Having considered the risk factors set out in ISA240 and the nature of the Council revenue streams, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> • There is little incentive to manipulate revenue recognition. • Opportunities to manipulate revenue recognition are very limited. • The culture and ethical frameworks of local authorities, including that of Thanet District Council, mean that all forms of fraud are seen as unacceptable. <p>Therefore, we do not consider this to be a significant risk at for Thanet District Council.</p>
Management over-ride of controls	<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. The council faces external scrutiny of its spending and this could potentially place management under undue pressure in terms of how they report performance.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Evaluate the design effectiveness of management controls over journals. • Analyse the journals listing and determine the criteria for selecting high risk unusual journals. • Test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration. • Gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence. • Evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of Land and Buildings (including Council, Investment Properties)	<p>The Council revalues its land and buildings on a rolling five-yearly basis. Investment properties are revalued each year. These valuations represents a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions.</p> <p>Additionally, management will need to ensure the carrying value in the Council financial statements is not materially different from the current value or the fair value (for investment properties) at the financial statements date, where a rolling programme is used.</p> <p>We therefore identified valuation of land and buildings and Investment properties, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work. • Evaluate the competence, capabilities and objectivity of the valuation expert. • Write to the valuer to confirm the basis on which the valuation was carried out to ensure that the requirements of the Code are met. • Test revaluations made during the year to see if they had been input correctly into the Council's asset register and financial statements. • Assess the value of a sample of assets in relation to market rates for comparable properties. • Test a sample of beacon properties in respect of council dwellings to consider whether their valuation assumptions are appropriate and whether they are truly representative of the other properties within that beacon group.
Valuation of the pension fund net liability	<p>The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements.</p> <p>The pension fund net liability is considered a significant estimate due to the size of the numbers involved (£90.4 million in the Council's balance sheet) and the sensitivity of the estimate to changes in key assumptions.</p> <p>We therefore identified valuation of the Council's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Update our understanding of the processes and controls put in place by management to ensure that the Council's pension fund net liability is not materially misstated and evaluate the design of the associated controls. • Evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work. • Assess the competence, capabilities and objectivity of the actuary who carried out the Council's pension fund valuation. • Assess the accuracy and completeness of the information provided by the Council to the actuary to estimate the liability. • Test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary. • Undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report. • obtain assurances from the auditor of Kent County Council Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.

Accounting estimates and related disclosures

The Financial Reporting Council issued an updated ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* which includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Governance and Audit Committee members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

Additional information that will be required

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2021.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and buildings, council dwellings and investment properties
- Depreciation
- Year end provisions and accruals,
- Credit loss and impairment allowances
- Provision for Business Rates Appeals
- Valuation of defined benefit net pension fund liabilities
- Fair value estimates
- Valuation of level 2 and level 3 investments

The Council's Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

Accounting estimates and related disclosures

We are aware that the Council uses management experts in deriving some of its more complex estimates, e.g. asset valuations and pensions liabilities. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that:

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council (and where applicable its service provider or management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

Estimation uncertainty

Under ISA (UK) 540 we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

Where there is material estimation uncertainty, we would expect the financial statement disclosures to detail:

- **What the assumptions and uncertainties are;**
- **How sensitive the assets and liabilities are to those assumptions, and why;**
- **The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and**
- **An explanation of any changes made to past assumptions if the uncertainty is unresolved.**

Planning enquiries

As part of our planning risk assessment procedures we have sent inquiries to the management that will be presented to the Governance & Audit Committee as part of our Informing the audit risk assessment report. We would appreciate a prompt response to these enquiries in due course.

Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:

[https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-\(UK\)-540_Revised-December-2018_final.pdf](https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-(UK)-540_Revised-December-2018_final.pdf)

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement and any other information published alongside your financial statements to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
 - giving electors the opportunity to raise questions about your 2020/21 financial statements, consider and decide upon any objections received in relation to the 2020/21 financial statements;
 - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act).
 - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
 - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to obtain sufficient appropriate audit evidence regarding, and conclude on:

- whether a material uncertainty related to going concern exists; and
- the appropriateness of management's use of the going concern basis of accounting in the preparation of the financial statements.

The Public Audit Forum has been designated by the Financial Reporting Council as a "SORP-making body" for the purposes of maintaining and updating Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom (PN 10). It is intended that auditors of public sector bodies read PN 10 in conjunction with (ISAs) (UK).

PN 10 has recently been updated to take account of revisions to ISAs (UK), including ISA (UK) 570 on going concern. The revisions to PN 10 in respect of going concern are important and mark a significant departure from how this concept has been audited in the public sector in the past. In particular, PN 10 allows auditors to apply a 'continued provision of service approach' to auditing going concern, where appropriate. Applying such an approach should enable us to increase our focus on wider financial resilience (as part of our VFM work) and ensure that our work on going concern is proportionate for public sector bodies. We will review the Council's arrangements for securing financial sustainability as part of our Value for Money work and provide a commentary on this in our Auditor's Annual Report.

Materiality

The concept of materiality

Materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

We have determined financial statement materiality based on a proportion of the gross expenditure of the Council for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £2.6 million (PY £2.4 million) for the Council, which equates to 2% of your prior year gross expenditure for the year.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Matters we will report to the Governance & Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Governance & Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £0.13 million (PY £0.11m).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Governance & Audit Committee to assist it in fulfilling its governance responsibilities.

Value for Money arrangements

Revised approach to Value for Money work for 2020/21

On 1 April 2020, the National Audit Office introduced a new Code of Audit Practice which comes into effect from audit year 2020/21. The Code introduced a revised approach to the audit of Value for Money. (VFM)

There are three main changes arising from the NAO's new approach:

- A new set of key criteria, covering financial sustainability, governance and improvements in economy, efficiency and effectiveness
- More extensive reporting, with a requirement on the auditor to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach
- The replacement of the binary (qualified / unqualified) approach to VFM conclusions, with far more sophisticated judgements on performance, as well as key recommendations on any significant weaknesses in arrangements identified during the audit.

The Code require auditors to consider whether the body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. When reporting on these arrangements, the Code requires auditors to structure their commentary on arrangements under three specified reporting criteria. These are as set out below:

Improving economy, efficiency and effectiveness

Arrangements for improving the way the body delivers its services. This includes arrangements for understanding costs and delivering efficiencies and improving outcomes for service users.

Financial Sustainability

Arrangements for ensuring the body can continue to deliver services. This includes planning resources to ensure adequate finances and maintain sustainable levels of spending over the medium term (3-5 years)

Governance

Arrangements for ensuring that the body makes appropriate decisions in the right way. This includes arrangements for budget setting and management, risk management, and ensuring the body makes decisions based on appropriate information

Risks of significant VFM weaknesses

As part of our planning work, we considered whether there were any risks of significant weakness in the body's arrangements for securing economy, efficiency and effectiveness in its use of resources that we needed to perform further procedures on. The risks we have identified are detailed in the first table below, along with the further procedures we will perform. We may need to make recommendations following the completion of our work. The potential different types of recommendations we could make are set out in the second table below.

Risks of significant weakness

Those risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the body to deliver value for money.

The Council's medium term financial sustainability

Thanet District Council has a comparatively low level of General fund reserves compared to other district councils in Kent. The current term Medium Term financial strategy has identified savings/income generation requirements of £6.8 million between 2020/21 and 2023/24. In 2020/21 the requirement sits at £730k, with it rising to £1,022k by 2023/24. As of the date of the MTFs £2.9m of these planned efficiencies remained unidentified.

This coupled with the impact of COVID-19 which has placed a pressure in 2021/22 on the reserves of £1.7m, creates concerns regarding the deliverability of these future saving plans. There is therefore a risk of a weakness in the arrangements to deliver financial sustainability.

Our work will include review the Council's arrangements for budget setting and monitoring and for identifying and delivering savings plans.

Governance arrangements in relation to grievances and concerns

The Council continues to address matters raised as grievances in 2019 and 2020. The matters are complex and external support has been acquired to help progress the matters. Given the time involved, there is a risk of a weakness in governance arrangements.

Our work will include a review of the Council's governance arrangements for responding to grievances and whether the arrangements have been implemented as designed.

Potential types of recommendations

A range of different recommendations could be made following the completion of work on risks of significant weakness, as follows:

Statutory recommendation

Written recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

Key recommendation

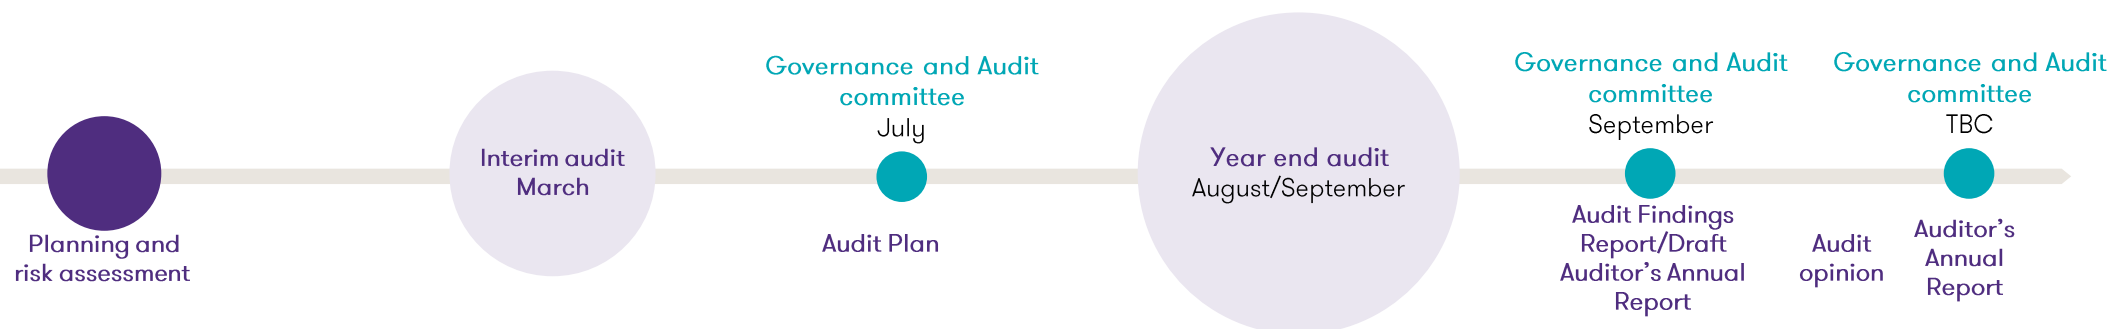

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements

Audit logistics and team

Sarah Ironmonger, Engagement Lead

Engagement lead, for the Council, and leads the work performed on the audit. Signs the audit opinion and holds regular meetings with senior officers.

Nick Halliwell, Audit Manager

Engagement manager responsible for the overall management of the Council's audit; quality assurance of audit work and outputs.

Mary Adeson, Audit Incharge

In charge is responsible for day to day management of the audit planning, interim and final accounts audit fieldwork, ensuring that your audit is delivered effectively, efficiently and supportively.

Audited body responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audits. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the agreed timetable you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

Audit fees

PSAA awarded a contract of audit for Thanet District Council with effect from 2018/19. The fee agreed in the contract was £51,048. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2020/21 audit.

As referred to on page 11, the 2020/21 Code introduces a revised approach to our VFM work. This requires auditors to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach. Auditors now have to make far more sophisticated judgements on performance, as well as issue key recommendations if any significant weaknesses in arrangements are identified during the audit. We will be working with the NAO and other audit firms to discuss and share learning in respect of common issues arising across the sector.

The new approach will be more challenging for audited bodies, involving discussions at a wider and more strategic level. Both the reporting, and the planning and risk assessment which underpins it, will require more audit time, delivered through a richer skill mix than in previous years. Our estimate is that for your audit, this will result in an increased fee of £15,000. This is in line with increases we are proposing at all our local audits.

Additionally, across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing, as noted in the number of revised ISA's issued by the FRC that are applicable to audits of financial statements commencing on or after 15 December 2019, as detailed in Appendix 1..

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and public sector financial reporting.

	Actual Fee 2019/20	Proposed fee 2020/21
Thanet District Council	£79,048	£81,548
Total audit fees (excluding VAT)	£79,048	£81,548

Assumptions

In setting the above fees, we have assumed that the Council will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

Audit fees – detailed analysis

	2019/20	2020/21
Scale fee published by PSAA	£51,048	£51,048
Raising the bar/regulatory factors – first raised in 2019/20	£7,500	£7,500
Covid-19	£8,800	
Dreamlands	£12,500	
Increased work on Value for Money (VfM) under new NAO Code		£15,000*
Additional review to address significant risk on governance		Tbc*
Increased audit requirements of revised ISAs in 2020/21		£8,000
Total audit fees (excluding VAT)	£79,048	£81,548

*

The increased work on value for money under the new NAO Code is £15,000. As part of identifying the significant risk on governance we have agreed a specific terms of reference for additional work with a proposed fee of £25,000. As the audit progresses we will discuss whether there is overlap between the two elements and will update you in subsequent reports.

All fee variations are subject to PSAA approval.

Independence and non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons. relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard (Revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Council.

Other services

The following other services provided by Grant Thornton were identified.

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Council's policy on the allotment of non-audit work to your auditors. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

Service	Fees £	Threats	Safeguards
Audit related			
Certification of Housing Capital receipts grant	TBC	Self-Interest because this is a recurring fee	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is low in comparison to the total fee for the audit and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level.
Agreed upon Procedures relating to Pooling of Housing Capital Receipts	5,000	As above	As above

Appendix 1: Revised Auditor Standards and application guidance
