Council

# How we make decisions on Suitability?

## *a. Criteria*

Thanet District Council ('TDC' or 'the Council') takes into account many factors during the decision making process for events on Council land:

- i. To ensure fair use of sites, the Council will look at the event proposal and take into consideration the nature of the event, suitability of the site and the proposed date.
- ii. In most circumstances, the TDC will operate a first come, first served policy when it comes to reserving and granting permission to occupy for events on Council land. In the instance of multiple requests for an event location, the Council will consider the following:

Factors TDC Consider	
Size	TDC will consider whether the size of each event is suitable for the area the organiser wishes to hire
Strategic fit	TDC will assess the suitability of the type of event, the event site, and external environment
Established event	If the event has established itself on this site, and has used the site previously on multiple occasions
Historical performance of event	TDC will review events and if the external environment has been affected due to complaints, disturbances, litter/waste etc. after each event has finished
Existing Events	New events need to consider existing events and the site usage when proposing a request.

## *b. Venue Suitability for Events*

Thanet District Council has a range of parks, open spaces of which many host a wide range of commercial and community events throughout the year. Each of the sites in the area offer different facilities and experiences for audiences. There is a list of potentially available sites that you will find on the [TDC website](#).

When planning an event, Event Organisers need to consider the venue in relation to:

- i. Size
- ii. Facilities
- iii. Location
- iv. Audience footfall
- v. Environmental effect/impact

The hirer must at all times take good care of the venue and will be responsible for any damage to:

- i. any part of the venue or
- ii. any equipment or other property of the Council within the venue or in the area surrounding the venue, whether by the hirer, event participants or other associated persons or contractors.
- iii. If it is a wet season, an Event Organiser may be given **two weeks' notice** from TDC that they will not be able to use the site. This condition is included in the [Event Policy Terms and Conditions](#).
- iv. On certain high usage sites, events will be spaced out with two or three weeks in between enabling the surface to recover.
- v. If an event is on a highway then Kent County Council will grant permission on the condition that the Event Organiser completes and provides the correct documentation to Thanet District Council, and that this is approved.

### c. *Event Venues*

The following venues are designated Event Sites by TDC. Further information about each site can be found on the [TDC website](#). These are the Council sites in Thanet that can, in principle, be used for events
