I'd like to know why Band D is not included? I'm a pensioner. The rating was done by a walk-by in the 90s. I have applied as I believe I'm in the wrong band. My street is half Victorian and half built in 60s I believe . However, mine was built in 1983 so there are none to compare to that year !

To keep it to one month.

No objection - but strong recommendation to return to paying council tax direct to landlords..has caused chaos with vulnerable tenants receiving monies, often backdated large amounts, which are supposed to be forwarded to landlords, but default instead.

No objection

Spread their repayments over a longer period from 10 months to 12 months. Process the claim quicker.

None

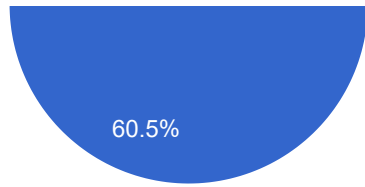

Change 2 - Introducing a clause allowing the council to disregard any income in the calculation of Council Tax Support that is classed as local welfare provision (LWP).
