Classification: Information Only

Summary: This report updates Members on the identified schemes approved for construction

1. Introduction

This report provides an update and summarises schemes that have been programmed for delivery in 2022/23 and 2023/24.

In summer 2021 Kent County Council published a Highways Asset Management Plan (HAMP), which included, as Appendix C, a five-year Forward Works Programme for the years 2021/22 to 2025/26. This reflected the need to move away from annual programmes and to consider asset management activity a multi-year one.

The first part of the programme concerned the two years 2021/22 - 2022/23. Around half of the schemes included in that programme have now been delivered, and as a result we have now produced a new programme covering the years 2022/23 - 2023/24. As before, most of the sites included in this programme have already been verified by our engineers.

The second part of our programme related to years three to five of our five-year programme (2023/24 - 2025/26). This too is in need of revision to cover the years 2024/25 - 2026/27, and the work required to do this is currently in progress. As before, our new years three to five programme will be largely based on data from our asset management systems, so may be subject to more changes as the schemes are verified..

This programme is subject to regular review and may change for a number of reasons including budget allocation, contract rate changes, inflationary pressures such as material price increases, conflicting works, and to reflect our changing priorities. The programme and extent of individual sites within the programme may also be revised following engineering assessment during the design phase, and additional sites may be added or others advanced if their condition deteriorates rapidly so that we need to react in order to keep the highway in a safe and serviceable condition.

Further information about how we manage our highway infrastructure, including our county-wide five-year forward works programme, may be found on our website:

<https://www.kent.gov.uk/about-the-council/strategies-and-policies/transport-and-highways-policies/managing-highway-infrastructure>

In addition to planned maintenance of our highway assets, this report includes transportation and safety schemes, developer funded works, Combined Members Grant schemes, and planned maintenance of public rights of way.

Appendix D – Transportation and Safety Schemes

Casualty Reduction Measures

The Road Safety and Active Travel Group is implementing schemes within the District of Thanet in order to meet Kent County Council's (KCC) strategic targets (for example, addressing traffic congestion or improving road safety). Casualty reduction measures have been identified to address a known history of personal injury crashes. Current status correct as of 2nd March 2023.

Local Transport Plan funded schemes		
Road Name	Description of Works	Current Status
Casualty Reduction Measures (reactive) – Thanet 2022/23		
22-TH-CRM-219 Marine Terrace, Margate	Installation of kerbed roundabout at junction with Marine Gardens, change of priority at j/w Belgrave Road	Outline design complete, results of modelling received. Additional modelling required to assess impact of proposed design amendments.
2223-CRM-TH-13 81 Northdown Road, Cliftonville	Various improvements to address pedestrian crashes – include changes to parking (no net loss) widening of footway where possible and bus stop improvements	Outline design and consultation complete. Scheme proposal signed off by David Brazier and detailed design in progress.
LTP Schemes, Thanet		

Externally Funded Schemes

The Road Safety & Active Travel Group is implementing schemes within the District of Thanet funded by external corporations whilst still meeting KCC's strategic targets with the road network.

Externally Funded Schemes - Active Travel Fund

Road Name	Description of Works	Source of Funding	Current Status
A28 between Birchington and Margate	Provision of cycle and walking improvements	Active Travel Fund	The original proposal was to provide walking & cycling improvements along the A28 corridor between Birchington and Margate. Following 2 consultations, this route has not been supported and therefore KCC is now looking at a route from Birchington On Sea Rail Station Westgate On Sea Rail Station as a first phase via Alpha Rd, Epple Rd, Sea Rd, Domneva Road, Cuthbert Rd onto Station Rd. This is in it's early stages of investigation. KCC needs to get confirmation from Active Travel England that a change of route is acceptable in terms of programme and funding. A request has been put to ATE. A significant element of the funding has also been requested to be diverted to other schemes that are further on in the design stage.
