Dear Residents,

We would like to share with you in more detail our plans.

We are a traditional beach kiosk that has been upgraded to create a family hub for locals to enjoy. Living locally ourselves on Stone Road, we know that Stone Bay is traditionally a local family beach.

We are offering a service where families can gather and enjoy freshly prepared healthy food, health and well-being classes, and a space to relax.

To allay local concerns, we will agree to limit trading hours to 10 pm only in May, June, July, and August. Outside of these dates, we will reduce the hours to 6 pm.

We intend to serve only plastic glasses at all times, with a limited range of beer, wine, and Pimms to accompany our range of food. We will police our area and the immediate surroundings.

We believe our presence may have a deterrent effect, stopping youngsters from having their own beach parties down on Stone Bay.

We appreciate that local people will obviously have concerns about the possible character change of Stone Bay by the introduction of the supply of alcohol. On the other hand, a recent Facebook post showed more people in favour than objecting. We will attach a printout showing this.

We are looking to achieve a balance to suit all interests.

We are aware that if we fail to operate the business properly, the council has wide powers to limit or remove the licenses.

Finally, we'd like to say that Josh Bay, Viking, Louisa Bay & Dumpton all have licensed kiosks.

Thank you

Dan Montila
