

Mid Year Review 2023/24: Treasury Management and Annual Investment Strategy

Cabinet	16 November 2023
Report Author	Chris Blundell, Director of Corporate Services and Section 151 Officer
Portfolio Holder	Councillor Rob Yates, Cabinet Member for Corporate Services
Status	For Decision
Classification	Unrestricted
Ward	Thanet Wide
Previously Considered by	N/A

Executive Summary:

This report summarises treasury management activity and prudential/ treasury indicators for the first half of 2023/24.

The Chartered Institute of Public Finance and Accountancy (CIPFA) defines treasury management as:

“The management of the local authority’s borrowing, investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.”

The regulatory environment places responsibility on members for the review and scrutiny of treasury management policy and activities. This report is, therefore, important in that respect, as it provides details of the 2023/24 mid-year position for treasury activities.

Key reporting items to consider include:

- 2023/24 mid-year capital expenditure on long term assets was £5.9m (2022/23 mid-year: £6.3m), against a full-year budget of £60.7m.
- The Council’s gross debt, also called the borrowing position, at 30 September 2023 was £19.7m (30 September 2022: £20.0m).
- The Council’s underlying need to borrow to finance its capital expenditure, also called the Capital Financing Requirement (CFR), is estimated to be £78.3m at 31 March 2024 (31 March 2023: £52.2m).
- The Council has held less gross debt than its CFR and accordingly has complied with the requirement not to exceed its authorised borrowing limit of £81m.

- As at 30 September 2023 the Council's investment balance was £55.4m (30 September 2022: £56.8m).
- It is proposed that the 2023/24 Treasury Management Strategy Statement be amended as described in section 3 of this report.

Recommendation(s):

That Cabinet:

1. Notes, and makes comments on as appropriate, this report and annexes;
2. Recommends this report and annexes (including the prudential and treasury indicators that are shown and the proposed changes to the 2023/24 Treasury Management Strategy Statement) to Council for approval.

Corporate Implications

Financial and Value for Money

The financial implications are highlighted in this report.

Legal

Section 151 of the 1972 Local Government Act requires a suitably qualified named officer to keep control of the Council's finances. For this Council, this is the Director of Corporate Services and Section 151 Officer, and this report is helping to carry out that function.

Risk Management

Risk management is as per the provisions of the annual Treasury Management Strategy Statement, Minimum Revenue Provision Policy Statement and Annual Investment Strategy.

Corporate

Failure to undertake this process will impact on the Council's compliance with the Treasury Management Code of Practice.

Equalities Act 2010 & Public Sector Equality Duty

There are no equity and equalities implications arising directly from this report, but the Council needs to retain a strong focus and understanding on issues of diversity amongst the local community and ensure service delivery matches these.

It is important to be aware of the Council's responsibility under the Public Sector Equality Duty (PSED) and show evidence that due consideration had been given to the equalities impact that may be brought upon communities by the decisions made by Council.

CORPORATE PRIORITIES

This report relates to the following corporate priorities: -

- Growth
- Environment
- Communities.

1 Background

1.1 Treasury management

The Chartered Institute of Public Finance and Accountancy (CIPFA) defines treasury management as:

“The management of the local authority’s borrowing, investments and cash flows, its banking, money market and capital market transactions;

the effective control of the risks associated with those activities; and

the pursuit of optimum performance consistent with those risks.”

The Council operates a balanced budget, which broadly means cash raised during the year will meet its cash expenditure. Part of the treasury management operation is to ensure this cash flow is adequately planned, with surplus monies being invested in low risk counterparties, providing adequate liquidity initially before considering optimising investment return.

The second main function of the treasury management service is the funding of the Council’s capital plans. These capital plans provide a guide to the borrowing need of the Council, essentially the longer term cash flow planning to ensure the Council can meet its capital spending operations. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses, and on occasion any debt previously drawn may be restructured to meet Council risk or cost objectives.

1.2 Capital Strategy

The CIPFA Prudential and Treasury Management Codes require all local authorities to prepare a Capital Strategy which is to provide the following: -

- a high-level overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services;
- an overview of how the associated risk is managed;
- the implications for future financial sustainability.

2 Introduction

2.1 This report has been written in accordance with the requirements of the CIPFA Code of Practice on Treasury Management.

- 2.2 The primary requirements of the Code are as follows:
- a) Creation and maintenance of a Treasury Management Policy Statement which sets out the policies and objectives of the Council's treasury management activities.
 - b) Creation and maintenance of Treasury Management Practices which set out the manner in which the Council will seek to achieve those policies and objectives.
 - c) Receipt by the full Council of an annual Treasury Management Strategy Statement - including the Annual Investment Strategy and Minimum Revenue Provision Policy (for the year ahead), a Mid-year Review Report (this report) and an Annual Report (stewardship report), covering activities during the previous year. Two additional quarterly reports are also provided to the Governance and Audit Committee.
 - d) Delegation by the Council of responsibilities for implementing and monitoring treasury management policies and practices and for the execution and administration of treasury management decisions.
 - e) Delegation by the Council of the role of scrutiny of treasury management strategy and policies to a specific named body. For this Council the delegated body is the Governance and Audit Committee.
- 2.3 This mid-year report has been prepared in compliance with CIPFA's Code of Practice on Treasury Management, and covers the following:
- An economic update for the first half of the 2023/24 financial year;
 - A review of the Treasury Management Strategy Statement and Annual Investment Strategy;
 - The Council's capital expenditure (see also the Capital Strategy) and prudential indicators;
 - A review of the Council's investment portfolio for 2023/24;
 - A review of the Council's borrowing strategy for 2023/24;
 - A review of any debt rescheduling undertaken during 2023/24;
 - A review of compliance with Treasury and Prudential Limits for 2023/24.

3 Treasury Management Strategy Statement and Annual Investment Strategy Update

- 3.1 The Treasury Management Strategy Statement (TMSS) for 2023/24, which includes the Annual Investment Strategy, Capital Strategy and Non-Treasury Investment Report, was approved by the Council on 9 February 2023.
- 3.2 It is proposed that both the Operational Boundary and Authorised Limit for borrowing in the 2023/24 TMSS (referred to in section 3.1 above) be increased by £20m to reflect the increase in the 2023/24 HRA capital

programme for the acquisition and development of new affordable housing units (as referred to in section 4.2 below).

3.3 During the half year ended 30 September 2023 the Council operated within the treasury and prudential indicators set out in the 2023/24 TMSS.

4 The Council's Capital Position (Prudential Indicators)

4.1 This part of the report is structured to update:

- The Council's capital expenditure plans;
- How these plans are being financed;
- The impact of the changes in the capital expenditure plans on the prudential indicators and the underlying need to borrow; and
- Compliance with the limits in place for borrowing activity.

4.2 Prudential Indicator for Capital Expenditure

This table shows the revised budgets for capital expenditure and the changes since the capital programme was agreed at the Budget.

The revised GF budget includes net reprofiling of -£6.748m (£33.159m unspent budgets from 2022/23 that have been rolled into 2023/24 less £39.907m subsequently transferred out). The largest element of the increase in the revised HRA budget is £19.485m for the acquisition and development of new affordable housing units

Capital Expenditure	2023/24 Original Budget £m	Current Position – Actual spend at 30/09/23 £m	2023/24 Revised Budget £m
General Fund	32.999	2.567	26.640
HRA	12.453	3.286	34.095
Total	45.452	5.853	60.735

Monitoring information on the capital programme at scheme level, including forecasts to the end of the financial year, is included in the regular Cabinet Budget Monitoring Reports.

4.3 Changes to the Financing of the Capital Programme

The table below takes the capital expenditure plans (as detailed in the previous table), and shows the expected financing arrangements of this capital expenditure.

The borrowing element of the table increases the underlying indebtedness of the Council by way of the Capital Financing Requirement (CFR), although this will be reduced in part by revenue charges for the repayment of debt (the Minimum Revenue Provision). This direct borrowing need may also be supplemented by maturing debt and other treasury requirements.

Capital Expenditure	2023/24 Original Budget £m Total	Current Position – Actual at 30/09/23 £m	2023/24 Revised Budget £m GF	2023/24 Revised Budget £m HRA	2023/24 Revised Budget £m Total
Total spend	45.452	5.853	26.640	34.095	60.735
Financed by:					
Capital receipts	3.811		4.653	1.517	6.170
Capital grants	25.836		14.336	1.583	15.919
Reserves	8.332		1.034	9.023	10.057
Revenue	0.405		0.112	0.370	0.482
Total financing	38.384		20.135	12.493	32.628
Borrowing need	7.068		6.505	21.602	28.107

4.4 Changes to the Prudential Indicators for the Capital Financing Requirement, External Debt and the Operational Boundary

The Council's underlying need to borrow to fund its capital expenditure is termed the Capital Financing Requirement (CFR). The CFR can be thought of as the outstanding debt that still needs to be repaid in relation to the capital assets (buildings, vehicles etc) that the Council has purchased or invested in. It can also be helpful to compare it to the outstanding balance that is still payable on a loan or a mortgage, in this case we are considering how much of the Council's debt still needs to be paid for.

The table below shows the CFR, and also shows the expected debt position over the period, which is termed the Operational Boundary.

Prudential Indicator – Capital Financing Requirement

We are on target to achieve the forecast CFR. The main reason for the increase in estimate shown below is the increase in the 2023/24 HRA capital programme for the acquisition and development of new affordable housing units (as referred to in section 4.2 above). THE CFR estimates below do not reflect the transfer of land off Highfield Road, Ramsgate from GF to HRA (as per the report tabled at the 2 March 2023 Cabinet meeting) as this transfer is estimated for 2024/25.

Prudential Indicator – the Operational Boundary for external debt

	2023/24 Original Estimate £m	Current Position – Actual at 30/09/23 £m	2023/24 Revised Estimate £m
Prudential Indicator – Capital Financing Requirement			

CFR –General Fund	29.002		28.687
CFR – HRA	31.331		49.631
Total CFR	60.333		78.318
Net movement in CFR	8.099		26.084
	2023/24 Original Indicator £m	Current Position – Actual at 30/09/23 £m	2023/24 Revised Indicator £m
Prudential Indicator - the Operational Boundary for External Debt			
Borrowing	76.000	19.718	96.000
Other long term liabilities*	10.000	0.596	10.000
Total debt	86.000	20.314	106.000

* Any 'on balance sheet' PFI schemes and finance leases etc (including the leisure centre deferred credit).

4.5 Limits to Borrowing Activity

The first key control over the treasury activity is a prudential indicator to ensure that over the medium term, borrowing will only be for a capital purpose. Gross external borrowing should not, except in the short term, exceed the total of CFR in the preceding year plus the estimates of any additional CFR for 2023/24 and next two financial years. This allows some flexibility for limited early borrowing for future years. The Council has approved a policy for borrowing in advance of need which will be adhered to if this proves prudent.

	2023/24 Original Estimate £m	Current Position – Actual at 30/09/23 £m	2023/24 Revised Estimate £m
Gross borrowing	54.683	19.718	77.317
Plus other long term liabilities*	0.597	0.596	0.568
Total gross borrowing	55.280	20.314	77.885
CFR (year end position)	60.333		78.318

The Section 151 Officer reports that no difficulties are envisaged for the current or future years in complying with this prudential indicator.

A further prudential indicator controls the overall level of borrowing. This is the Authorised Limit which represents the limit beyond which borrowing is prohibited, and needs to be set and revised by Members. It reflects the level of borrowing which, while not desired, could be afforded in the short term, but is not sustainable in the longer term. It is the expected maximum borrowing need with some headroom for unexpected movements. This is the statutory limit determined under section 3 (1) of the Local Government Act 2003.

Authorised Limit for external debt	2023/24 Original Indicator £m	Current Position – Actual at 30/09/23 £m	2023/24 Revised Indicator £m
Borrowing	81.000	19.718	101.000
Other long term liabilities*	15.000	0.596	15.000
Total	96.000	20.314	116.000

* Any 'on balance sheet' PFI schemes and finance leases etc (including the leisure centre deferred credit).

5 Annual Investment Strategy 2023/24

5.1 The Treasury Management Strategy Statement (TMSS) for 2023/24, which includes the Annual Investment Strategy, was approved by Council on 9 February 2023. In accordance with the CIPFA Treasury Management Code of Practice, it sets out the Council's investment priorities as being:

- Security of capital
- Liquidity
- Yield

5.2 The Council will aim to achieve the optimum return (yield) on its investments commensurate with proper levels of security and liquidity and with the Council's risk appetite. In the current economic climate it is considered appropriate to keep investments short term to cover cash flow needs, but also to seek out value available in periods up to 12 months with high credit quality financial institutions.

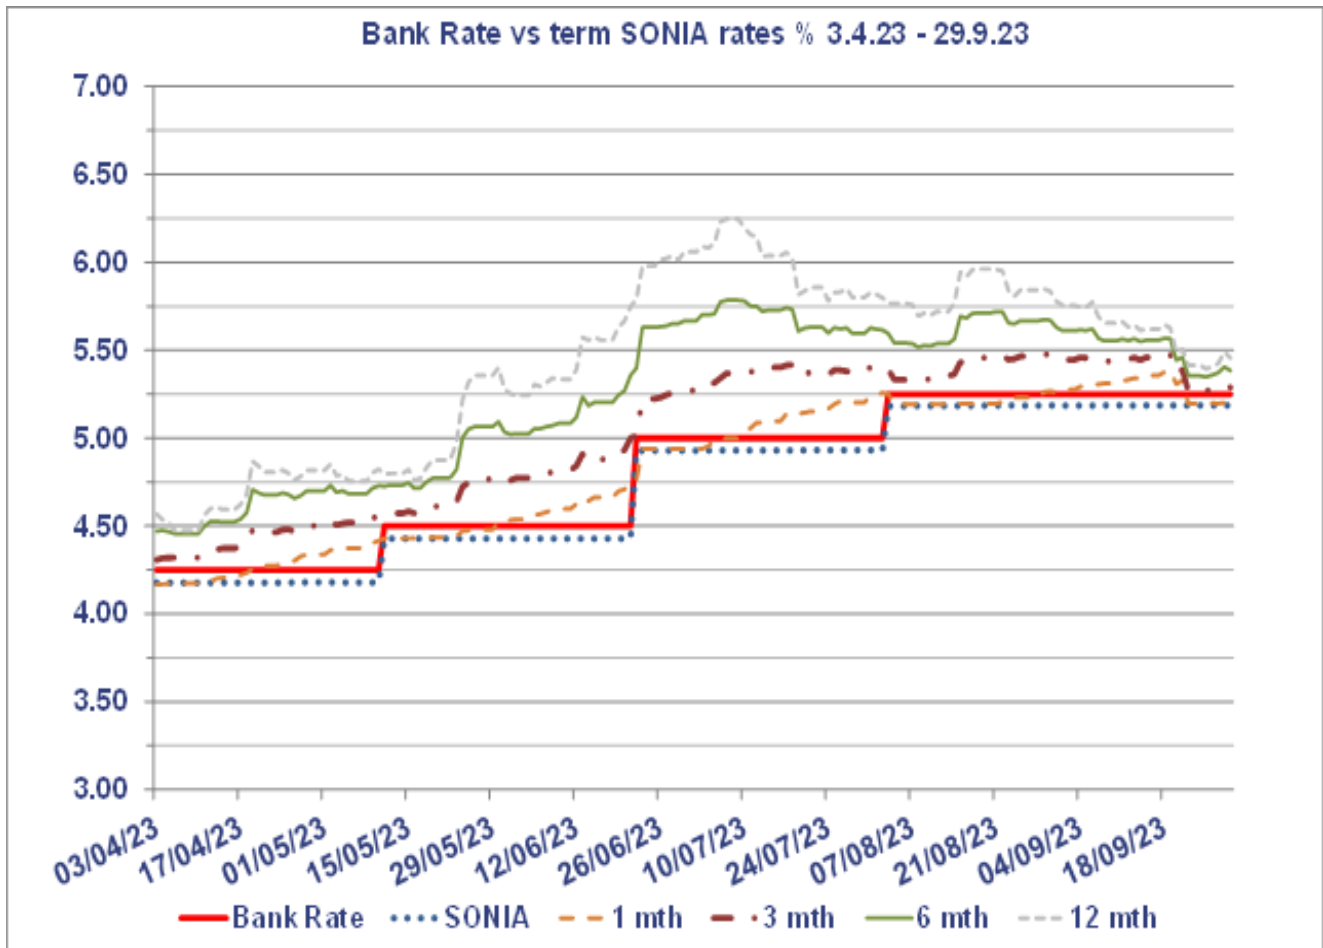

5.3 Creditworthiness

Following the Government's fiscal event on 23rd September 2022, both S&P and Fitch placed the UK sovereign debt rating on Negative Outlook, reflecting a downside bias to the current ratings in light of expectations of weaker finances and a challenging economic outlook. Nothing further has evolved in the first half of 2023/24.

5.4 Credit Default Swap (CDS) prices

It is noted that sentiment in the current economic climate can easily shift, so it remains important to undertake continual monitoring of all aspects of risk and return in the current circumstances.

5.5 Investment rates during half year ended 30th September 2023

	Bank Rate	SONIA	1 mth	3 mth	6 mth	12 mth
High	5.25	5.19	5.39	5.48	5.78	6.25
High Date	03/08/2023	29/09/2023	19/09/2023	30/08/2023	07/07/2023	07/07/2023
Low	4.25	4.18	4.17	4.31	4.46	4.47
Low Date	03/04/2023	04/04/2023	03/04/2023	03/04/2023	06/04/2023	06/04/2023
Average	4.81	4.74	4.83	5.03	5.26	5.45
Spread	1.00	1.01	1.22	1.17	1.33	1.77

5.6 The Council held £55.441m of investments as at 30 September 2023, with maturities all under one year (£56.827m at 31 March 2023). The investment portfolio yield for the first six months of the year is 4.68% against a benchmark (average 7 day SONIA compounded rate) of 4.67%. The constituent investments are:

Sector	Country	Total £m
Banks	UK	6.285
Money Market Funds	UK	48.156
Bond Funds	UK	1.000
Total		55.441

- 5.7 The Section 151 Officer confirms that the approved limits within the Annual Investment Strategy were not breached during the first six months of 2023/24.
- 5.8 The Council's budgeted investment return for 2023/24 is £1.262m (£0.631m half-year) and performance for the first half of the financial year is above budget at £1.389m. The revised estimate for 2023/24 is £2.385m.
- 5.9 The above bond fund is a pooled investment fund accounted for at fair value, although there is a mandatory statutory override for local authorities to reverse all unrealised fair value movements resulting from pooled investment funds to 31st March 2025. There was an unrealised fair value gain of £24k as at 31 March 2023 and it is not expected that the cessation of the override will have an adverse impact on the Council.

5.10 Investment Risk Benchmarking

Investment risk benchmarks were set in the 2023/24 Treasury Management Strategy Statement (TMSS) for security, liquidity and yield. The mid-year position against these benchmarks is given below.

5.10.1 Security

The Council's maximum security risk benchmark for the current portfolio, when compared to historic default tables, is:

- 0.05% historic risk of default when compared to the whole portfolio (excluding unrated investments).

The security benchmark for each individual year is (excluding unrated investments):

	1 year	2 years	3 years	4 years	5 years
Maximum	0.05%	0.05%	0.05%	0.05%	0.05%

Note: This benchmark is an average risk of default measure, and would not constitute an expectation of loss against a particular investment.

The Section 151 Officer can report that the investment portfolio was maintained within this overall benchmark for the first half of this financial year.

5.10.2 Liquidity

In respect of this area the Council seeks to maintain:

- Liquid short term deposits of at least £10m available with a week's notice.
- Weighted Average Life benchmark is expected to be 0.5 years, with a maximum of 1.0 year.

The Section 151 Officer can report that liquidity arrangements were adequate for the first half of this financial year.

This authority does not currently place investments for more than 370 days due to the credit, security and counterparty risks of placing such investments.

5.10.3 Yield

Local measures of yield benchmarks are:

- Investments – Internal returns above the average 7 day SONIA compounded rate.

The Section 151 Officer can report that the yield on deposits for the first half of the financial year is 4.68% against a benchmark (average 7 day SONIA compounded rate) of 4.67%.

5.11 Investment Counterparty criteria

The current investment counterparty criteria selection approved in the TMSS is meeting the requirement of the treasury management function.

6 Borrowing

- 6.1 The Council's capital financing requirement (CFR) revised estimate for 2023/24 is £78.318m. The CFR denotes the Council's underlying need to borrow for capital purposes. If the CFR is positive the Council may borrow from the PWLB or the market (external borrowing) or from internal balances on a temporary basis (internal borrowing). The balance of external and internal borrowing is generally driven by market conditions. The Council has borrowings of £19.718m (table 4.5) and will have utilised an estimated £58.600m of cash flow funds in lieu of borrowing (assuming no additional borrowing is undertaken during the year). This is a prudent and cost effective approach in the current economic climate but will require ongoing monitoring if further upside risk to gilt yields prevails.
- 6.2 No new external borrowing was undertaken during the first half of this financial year.
- 6.3 The Council repaid £0.165m of maturing debt during the first half of this financial year using investment balances, as below:

Lender	Principal £'000	Interest Rate	Repayment Date
PWLB	43	3.08%	24/04/23
PWLB	50	2.48%	30/05/23

PWLB	72	1.28%	20/06/23
Total	165		

As below, a further £0.093m of existing maturing debt is due to be repaid during the second half of this financial year. In addition, the Council has a long term loan of £4.5m from Dexia which has a lender's option/borrower's option (LOBO) feature. The option allows Dexia to alter the interest rate every six months although, if Dexia exercises this option, the Council may repay the loan. If Dexia decides not to exercise this option, the loan will continue at the fixed rate until maturity in 2065.

Lender	Principal £'000	Interest Rate	Repayment Date
PWLB	43	3.08%	23/10/23
PWLB	50	2.48%	27/11/23
Total	93		

- 6.4 Borrowing may be undertaken during the second half of this financial year and options will be reviewed in due course in line with market conditions. The capital programme is being kept under regular review due to the effects of inflationary pressures and shortages of materials, labour, and capital receipts. The Council's borrowing strategy will therefore also be regularly reviewed and then revised, if necessary, in order to achieve optimum value and risk exposure in the long-term.
- 6.5 The graph and table below show the movement in PWLB borrowing rates for the first six months of the year to 30 September 2023.
- 6.6 PWLB borrowing rates during half year ended 30th September 2023**

	1 Year	5 Year	10 Year	25 Year	50 Year
Low	4.65%	4.14%	4.20%	4.58%	4.27%
Date	06/04/2023	06/04/2023	06/04/2023	06/04/2023	05/04/2023
High	6.36%	5.93%	5.51%	5.73%	5.45%
Date	06/07/2023	07/07/2023	22/08/2023	17/08/2023	28/09/2023
Average	5.62%	5.16%	5.01%	5.29%	5.00%
Spread	1.71%	1.79%	1.31%	1.15%	1.18%

6.7 Gilt yields and PWLB certainty rates were on a generally rising trend throughout the first half of 2023/24. At the beginning of April, the 5-year rate was the cheapest part of the curve and touched 4.14% whilst the 25-year rate was relatively expensive at 4.58%.

6.8 July saw short-dated rates peak at their most expensive. The 1-year rate spiked to 6.36% and the 5-year rate to 5.93%. Although, in due course, short-dated rate expectations fell, the medium dates shifted higher through August and the 10-year rate pushed higher to 5.51% and the 25-year rate to 5.73%. The 50-year rate was 4.27% on 5th April but rose to 5.45% on 28th September.

6.9 Link Group (the Council's external treasury management advisor) forecasts rates to fall back over the next two to three years as inflation dampens. The CPI measure of inflation is expected to fall below 2% in the second half of 2024, and Link Group forecasts 50-year rates to stand at 3.90% by the end of September 2025. However, there is considerable gilt issuance to be digested by the market over the next couple of years, as a minimum, so there is a high degree of uncertainty as to whether rates will fall that far.

6.10 The current PWLB rates are set as margins over gilt yields as follows: -

- **PWLB Standard Rate** is gilt plus 100 basis points (G+100bps)
- **PWLB Certainty Rate (GF)** is gilt plus 80 basis points (G+80bps)
- **PWLB Local Infrastructure Rate** is gilt plus 60bps (G+60bps)
- **PWLB Certainty Rate (HRA)** is gilt plus 40bps (G+40bps)

The **UK Infrastructure Bank** will lend to local authorities that meet its scheme criteria at a rate currently set at gilt plus 40bps (G+40bps).

6.11 Debt rescheduling opportunities have increased over the course of the past six months and will be considered if giving rise to long-term savings. However, no debt rescheduling has been undertaken to date in the current financial year.

6.12 The Council's budgeted debt interest payable for 2023/24 is £2.077m (£1.039m half-year) and performance for the first half of the financial year is below budget at £0.401m, reflecting the use of internal borrowing (see section 6.1). The revised estimate for 2023/24 is £2.388m.

7 Treasury Management Indicators

7.1 Ratio of financing costs to net revenue stream

This indicator identifies the trend in the cost of capital (borrowing and other long term obligation costs net of investment income) against the net revenue stream.

%	2023/24 Original Indicator	2023/24 Revised Indicator
GF	10.0%	5.6%
HRA	6.6%	3.5%

7.2 Maturity Structures of Borrowing

These gross limits are set to reduce the Council's exposure to large fixed rate sums falling due for refinancing.

	2023/24 Original Upper Limit	Current Position – Actual at 30/09/23	2023/24 Revised Upper Limit

Maturity structure of fixed rate borrowing			
Under 12 months	50%	35.7%	50%
1 year to under 2 years	50%	0.4%	50%
2 years to under 5 years	50%	1.3%	50%
5 years to under 10 years	50%	12.0%	50%
10 years to under 20 years	50%	35.8%	50%
20 years to under 30 years	50%	9.7%	50%
30 years to under 40 years	50%	0.0%	50%
40 years to under 50 years	50%	5.1%	50%
50 years and above	50%	0.0%	50%

The current position shows the actual percentage of fixed rate debt the authority has within each maturity span. None of the upper limits have been breached.

8 Options

8.1 The recommended option (to ensure regulatory compliance as set out in section 1 of this report) is that Cabinet:

- Notes, and makes comments on as appropriate, this report and annexes.
- Recommends this report and annexes (including the prudential and treasury indicators that are shown and the proposed changes to the 2023/24 Treasury Management Strategy Statement) to Council for approval.

8.2 Alternatively, Cabinet may decide not to do this and advise the reason(s) why.

9 Next Steps

9.1 This report is to go to the 29 November 2023 Governance & Audit Committee meeting, and then to the 7 December 2023 Council meeting for approval.

10 Disclaimer
